FIFTY-FOUR YEARS' CONTINUOUS SERVICE TO THE OKANAGAN VALLEY

VOL. 55.—Number 8.—Whole Number 2772.

VERNON, B. C., THURSDAY, JULY 6, 1944

\$2.50 Payable in Advance

July 8 Next W/S Stamp Campaign

Response of Citizens on First Day of New Drive Was Excellent

"Back the Invasion With an Extra War Savings Stamp." This is the slogan chosen by the Vernon branch, National War Finance Committee, for the second in the day-a-month War Savings Stamp drive, to be held next Saturday, July 8. Elmer F. Little is chairman of the revamped committee which is responsible for the signal success of the initial day of the campaign, June 3. On that day, sales of stamps and certificates in Vernon were \$712.25.

Mr. Little stated further last Monday, that sales in Vernon of War Savings Stamps for the month of June totaled \$1,245.00. "We must try and keep this up," he said.

The co-operation of Vernon merchants, storekeepers, and proprietors of business premises has been remarkable, said Mr. Little. They have given of their time and display space for the sale of stamps and certificates in no mean degree.

Next Saturday there will be no "Miss Canada" girls on the street corners; only in the Theatre. Vernon citizens, visitors and country patrons, therefore, are asked to bear the date in mind, and ask for War Savings Stamps on their weekend shopping lists.

An executive meeting was held in the Board of Trade rooms last Friday afternoon, Mr. Little presiding. Plans were then made for next Saturday's campaign, and the figure quoted above for the June 3 drive was disclosed.

The house-to-house canvass will remain as at present; ladies who have made themselves responsible for various zones, have their own working arrangements with customers, and these will not be interfered with in day-a-month drives. Some ladies are reporting stimulated sales in their zones.

J. N. Taylor to Head Rotarians

Inauguration of New Slate of Officers Takes Place at Long Lake Home

At a special meeting today, Thursday, new officers of the Vernon Rotary Club will be sworn in.

Rotarian J. N. Taylor, manager of the Bank of Montreal here, will officially grasp the reins as the Club's new president, with H. J. Fosbrooke, local representative of the W.P.T.B. in the chair of vice-president.

The new directors include: Gordon Lindsay, Melville Beaven, A. Browne, F. R. Harris, and J. T. Mutrie.

The Club will gather at the home of Rotarian Cecil Johnston at Long Lake, where a garden party and dinner will follow the business meeting, which is being held to replace the regular luncheon next Monday, July 10.

Irish Will Do It Every Time

Topnotcher among Vernon athletes, Sam Hannan, prominent Vernon dentist, who hails from the Irish capital Belfast, is now holder of the Revelstoke golf course record.

Coming in on the nine hole course at the attractive Rocky Mountain golf course on Monday, Hannan virtually displayed supernatural skill as he "canned" the ninth in 30 strokes.

Former record holder was Kenny Black, noted Vancouver amateur, with 32 strokes. Black will have to mend his ways now, as the Vernon sharp-shooter has tossed his record into oblivion.

Hannan was on his game going out with 39 strokes. On the way in he could not be equalled. At the first hole he scored an eagle, drove along the fairways for three birdies and five par holes to smash the course par by 5 strokes.

Black, established the old record a few years back when a travelling salesman. On his trips through the interior he often had a chance to play in Revelstoke, and was out one day having some fun, when he came through with the now defunct mark.

Likewise, Hannan was enjoying the holiday weekend when he made good his opportunity to set a new record.

His record, coming to Vernon 10 years ago Hannan has become a proverbial winner of silverware in interior competitions. He's a sober fellow—takes his game seriously, although just a recreation—does his best, which is certainly commendable.

While a young man in Ireland Hannan played with the Under Junior cup team of 1922. A year later he came to Revelstoke, and shortly afterwards moved to Revelstoke.

At the latter centre he was a pioneer of the sport. No golf course was situated there until a few years ago.

By stocking up with fuel. (Continued on Page 10, Col. 4)

Plenty of Irrigation Water Should Summer Turn Dry

Storages of irrigation water, in the event of a sudden dry spell in this district, continue to be normal, according to reports at last Thursday's regular business parley of trustees of the Vernon Irrigation District.

The water gauge at Aberdeen is 21 feet, with Haddo registering 19 feet three inches; Goose Lake 16 feet 11 inches, and King Edward up to the spillway.

The trustees authorized the construction of a cabin near the Coldstream Ranch, to house the District's bailiff.

The 1944 assessment by-law has been passed and registered by the Controller of Water Rights.

John and Gerald Pearson, who have purchased property in the B.X. District, were permitted water services on their newly bought lands.

The trustees offered tender for the removal of steel material from the Gold-Paradise Creek diversion. Chairman W. H. Baumbrough, P. J. LeGuen, and J. C. Keenan were appointed as the court of revision for 1944.

South Vernon Farmer Loses 40 Acres Oats

Grasshopper Plague Reaching Alarming Proportions; Poison Bait Only Solution

The farmers' war against the grasshoppers in this area mounts in severity with the hot July weather.

Warm sunshine of the past few days has stimulated a locust plague, which, until this month, was held in check by continued downpours of rain.

Entomologist Ivor J. Ward and Horticulturist M. S. Middleton, toured the district on Monday to look the situation over.

They found the farmer stubbornly battling swarms of hoppers on the fringes of his cultivated land. All reported making a heavy kill, but they admitted that the pest exists in literal millions.

The recent frequent rains have kept hoppers satisfied with range-land vegetation. But as hot summer weather advances, they move from the upper drying range-land down to cultivated acreages.

"This is the situation as it stands at present, and only by constant poisonous baiting can the man on the land expect to stop the pest from completely devouring his ground crops. Mr. Ward emphatically said after Monday's inspection.

As hoppers have been restricted mainly to range-lands up to the present grain and alfalfa crops have so far suffered the worst damage from the advancing hordes.

The worst case of crop loss occurred in the South Vernon area where a farm's oat crop of 40 acres was completely stripped recently.

The severity of infestations vary in different sections of the district. A motorist enroute to Vernon along Kalamalka Lake road on Monday reported that a huge swarm was migrating across the highway and that a bicycle ahead looked as if it was travelling through water as it flowed its way through the pests.

Some residents adjacent to range-lands have been forced to obtain bait to protect their private vegetable gardens.

Mr. Ward said on Monday that the Municipality of Armstrong deserves commendation for their work in assisting farmers to protect crops from hoppers. Early in May they were mixing bait for an emergency.

In Grandview Flats district many growers have saved crops because they have been baiting since early in May.

Mr. Ward made a statement which paints a brighter picture for next year. He said that parasites and predatory insects are building up reasonably fast, which should be an indication that the hopper infestation will reach its peak in this district this year. Parasites and predators will commence to reduce the locust population next year.

Future for Youth Probed By 30 City Clubs, Groups

City Falls in Line With Dominion-Wide Program of Canadian Youth Association

Practically every organization in Vernon has representation on the Vernon Canadian Youth Association, which, at a second meeting in the Vernon High School library on Monday evening, formulated plans for a wide field of topics its members will study, investigate, and later make progressive recommendations in the form of a compact brief.

The Vernon group has fallen in line with a Dominion-wide program organized by the Canadian Youth Commission. The aim of the entire movement is to give the youth of the Dominion a voice in the government of the post-war period.

A number of the topics that the Vernon youth group proposed to work on were discussed at Monday's session.

High School principal W. R. Pepper, in speaking on education, said: "The purpose of the organization is to secure youth opinion on social problems."

He suggested that the organization strive for development of closer co-operation between the parents and the school. Recommendations as to the needs and facilities of the school, and even revisions of the curriculum, were other suggestions of Mr. Pepper.

Mrs. S. J. Martin, school nurse, spoke on physical and mental health. Mrs. Martin strongly recommended an appointment of a special committee comprising persons familiar with technicalities which would be confronted in an investigation of this kind. Mrs. Martin offered her services on the committee.

Sermons For Youth. Capt. Stewart, chaplain of the Canadian School of Infantry, speaking on religion and life philosophy, said that the answer to the problems of youth and religion would be the establishment of churches restricted to youth worship, that sermons could be prepared for youth.

Future For Youth. (Continued on Page 4, Col. 6)

City Rejects New Proposal Regarding Kalamalka Beach

Owner Suggests Barter of Large Portion of Land in Exchange For City Hall Site

The matter of the Kalamalka Lake Beach was again the focal point of discussion at Monday evening's City Council meeting.

Mr. Filman, on behalf of his client, T. L. Harrison, offered to convey to the City of Vernon that portion of the beach property at present owned by him, containing 67.79 acres, except the 200 feet at the southern end. This proposition was made subject to the City having the privilege of constructing a North-South road through the eastern portion of the 200-foot strip to connect with the present Coldstream Municipal road lying to the South.

In return, Mr. Harrison asked the City to convey to him the site on which the City Hall now stands, at the Corner of Broadway Avenue and Eighth Street. He suggested that the City be at liberty to retain possession of the property for three years following the end of the war; and in return, the property to be tax free, and the City to pay to Mr. Harrison a monthly rental of \$50.

Further, Mr. Harrison asked that the City grant him the Concessions at the Kalamalka Lake beach for 15 years, covering buildings at present erected, or might be erected subsequently during that period.

The matter was not enthusiastically received on Monday evening by the assembly, who were unanimous that the offer did not meet with the favor of the Council. Mr. Filman, however, has been since advised to this effect.

The property is no more valuable to the City than when the City was defeated in the World War, which was said by Mr. Harrison.

Mr. Harrison said that the City Hall site is in no way comparable in value to the beach property, and Alderman F. Harwood, who presided.

In the event of the Council not accepting Mr. Harrison's offer, it is understood from Mr. Filman that his client will offer the land in Lake Frontage lots.

Civic Assessments Will Not be Upped During This Year

All-Time Fire Chief Endorsed

Wide Range of Civic Matters Parleyed at Last Council Meeting

"An all time fire chief is a wonderful improvement," said His Worship Mayor David Howrie on Monday evening at the regular Council meeting. In this Alderman C. J. Hurt concurred.

The Mayor, on behalf of the Council, said the City was glad to welcome home Gunner A. N. Humphries, R.C.A., who returned to Vernon from Sicily and Italy last Friday. "We trust it will not be long before he regains his health and strength," he said.

Gnr. and Mrs. Humphries are spending a holiday in Eastern Canada.

His Worship reported on the recent meeting of the Post War Planning committee. The chairman was accepting their work very seriously," he remarked.

"The Army Cadets from this city are a fine body of young men," he continued, referring to a group of 30 lads who were on Thursday at the Cadet camp at Chilliwack. He paid tribute to the fine work of L. Corner, C.N.R., Vernon, in obtaining an air-conditioned coach for the boys.

Alderman C. J. Hurt, reporting for the Library committee, asked for a donation of \$100 passed in civic estimates, for the purchase of books for the Vernon Public Library. This was granted.

Alderman F. S. Galbraith said that negotiations for the transfer from the Provincial Government to the City of Vernon of the North End Park, (formerly the old Internment Camp site on Mara Avenue), "were sufficiently advanced to do something." He suggested plans be drawn up. A section of the property has already some fine shade trees, and here facilities for picnic parties were suggested; as well as a further section which could be "beautified with landscape gardens."

"I do most strongly feel, however, attractive as these suggestions are, the portion of the ground set aside for sports purposes should be our first consideration," said His Worship Mayor D. Howrie, suggesting a base-ball diamond and recreational park. "The young people have a right to be considered," he added. "If a start could be made this year it would be a wonderful thing," declared the Mayor.

"I am very glad to see something is being done," he concluded. On account of the passing of the recent motion by-laws, he decided to open negotiations for offers for the sale of bonds. Alderman Cousins suggested calling for tenders locally. While serial bonds are not very attractive, to private purchasers, Alderman Cousins was of the opinion they might interest Vernon people.

All Time Fire Chief (Continued on Page 9, Col. 5)

High School Lads Watch for Forest Fires in District

Eighteen senior high school youths from Vernon, Kamloops, Salmon Arm, Penticton and Princeton have completed two weeks training in fire suppression at Paul Lake, B.C., under the supervision of the forestry branch.

Eight of the young men, plus a foreman, were returned to Vernon on Tuesday evening to stand watch over forests in the district, in the event of a fire outbreak. When not combating fires they will be employed on improvement work. The other contingents of the same personnel have been dispatched to Bonchland and Princeton districts.

Elderly Chinaman's Assault Located?

The local police force has tracked down the man they allege to be the assailant of Chin Quong, 63, who was knocked down and injured at the corner of Broadway Avenue and Eighth Street on Wednesday evening, June 28.

He is Walter Torg, who was arrested before P.F.s Dr. E. W. Prowse and His Worship Mayor David Howrie, acting in City Police Court for Mischief, William Morley, on a charge of assault.

Mr. Torg pleaded guilty and the case was remanded for eight days. The Chinaman is being treated in the Vernon Jubilee Hospital, for a fractured jaw.

Frank Smith, of Vernon, acted in behalf of the defendant, and a watching brief in behalf of the Chinaman.

Council as a Whole Not in Favor of Restoring 20 Percent Pre-Depression Cut

Ways and means were discussed at length around the Council table on Monday evening, which resulted in a decision against raising City Assessments. This step had been recommended by City Clerk J. W. Wright, who advocated restoring the pre-depression figure of 20 percent, to finance the money by-laws recently passed.

Alderman Cecil Johnston moved the "assessment be put back." Alderman F. Harwood supported him, but the motion defeated when put to the vote.

FO. J. Pearcey Prisoner-of-War

FO. James Pearcey, R.C.A., who was listed missing after air operations overseas on June 1, has been reported a prisoner of war in Germany.

FO. Pearcey is the brother of Chris Pearcey, employee of the Northern Electric in Vernon. His parents are Mr. and Mrs. C. Pearcey, of Vancouver.

"Where are we going to get more revenue?" said Alderman Johnston. "That is up to next year's Council," said His Worship Mayor David Howrie, who presided.

The matter had been raised at previous meetings, but Mayor Howrie brought it to a head on Monday evening. Alderman Galbraith suggested data be compiled from other towns with similar population and industry.

Discussing the relative effects of mill rate or assessment, "It's as broad as it's long," said Alderman C. J. Hurt.

Against Restoring Assessment. Alderman E. Bruce Cousins has all along been against raising the assessment. Citing other cities, "New Westminster mill rate of 70 mills is the highest in B.C. West Vancouver, second highest," he gave as examples.

City Clerk Wright said that "When a potential purchaser of a home is making enquiries, the first thing he asks is 'What are the taxes?' To this Alderman Cousins disagreed. He was of the opinion that "There must have been some other reason than hard times" when the mill rate was lowered 20 percent, 10 years ago.

"We are not raising, just restoring," interjected His Worship, referring to assessment.

Alderman Hurt said that lots on Barnard Avenue were sold at much less than they should have been in the past.

The question of farming land within the City limits then entered into the discussion, but it was felt that very shortly subdivisions of such lands will be made for building sites.

"This Council is not the only one faced with the necessity of a mill rate or assessment," said Alderman Galbraith, enquiring of City Clerk Wright the difference two mills would make. The City Clerk thought \$6,000 approximately would result.

"Well, I am for raising the mill rate rather than assessment," said Alderman Cousins, concluding.

Alderman Cousins, Galbraith and Hurt were against raising the assessment when the matter went to vote.

Air Hose Cut At City Garage

Irreplaceable Piece of Equipment Severed by Unscrupulous Vandal

An unscrupulous thief made away with valuable equipment from the premises of Watkin Motors Limited, on Thursday night—valuable, because the material is difficult to replace, and because at present, it was the air hose, placed outside the premises for the convenience of the public.

The owner, J. H. Watkin, said he was certain the job was premeditated, because the vandal, wielding the knife made a clean job.

Further, he felt certain that the destructive thief will use the multi-hose for automobiles, hand pumps, because they cannot be purchased now.

Mr. Watkin has replaced the stolen hose with an old one he had laid away in storage. The police have been notified of the theft.

Two small boys were swimming at the river east of the community, Thursday night, but they were lost to help the girl, the constable said. An effort to save her was made, however, as 10-year-old Vernon Wilson heard the girl's screams and ran to her assistance. He dove in the river but was too late to save her.

The missing girl is the daughter of Mr. and Mrs. John Servoshonkey who came to Enderby from the prairies two years ago.

Unusual Holdup in Garage Business Experienced Here

On Monday Dick and Jack Monk, of the Vernon Garage, were forced to suspend service from one of their gas pumps for nearly three hours. It was not because someone had stolen one of the vital parts of the apparatus, but because a swarm of bees had decided to make their home inside the casing of the pump.

Not knowing how to handle bees, the garagemen dared not tamper with the pump too much. Luckily, one of their customers, Pete Krivonoz, a vital part of a beeman. He darted in and assisted by another veteran beeman, Fred Martin, they managed to coax the outswarming and scraped the bees into a hive.

They were out to get the queen bee so that the others would follow her. They managed to capture the leading lady first, and it was a long, long before the streets were clear and pedestrians could again walk by without hearing the buzz of a stinger nearby.

Canadian Airmen Move Into Normandy. French-speaking Canadians in Normandy find it easy to get along with the language. Most of their ancestors came from there. Here a British Columbia airman looks over the sight with a French boy.

City Sportsmen Protest Orders of Game Commission

Authority Given to Patrol With "Dog And Gun" Crops Endangered by Pheasants

Sportsmen in the district have been rewarded in their efforts to put over a method by which vegetable growers in the district can be protected from pheasants, and at the same time the sportsman can take a moment's respite and feel assured that the day has yet to come when the area's favorite game bird might be completely eradicated.

This week the Game Commission notified the Vernon Fish, Game and Forest Protective Association that they are agreeable to issue permits to pick members of the game club to patrol vegetable farm lands and protect crops from pheasant damage.

The notification said that the birds shot are to be turned over to the hospital, or left on the ground. The shooting, it further orders, is to be carried out under direct supervision of the district game warden.

Amunition for this special assignment to sportsmen is believed to be available, the Game Commission's letter says, and the Rationing Officer of the W.P.T.B. is being approached in this behalf.

Last night, Wednesday, the executive of the local game club met and discussed the new development.

The executive was agreeable with each aspect except one, to which they voiced strong protest, and plan to do so in an immediate letter to the Game Commission.

Club Protests Against Supervision

They could not see why a responsible body of men, such as the game club represented, should have to have a game warden "looking down their necks" while they carried out such an important task, not only for the protection of the vegetable man, but also for the preservation of the pheasant.

The information given by the Game Commission was to the effect that the Game Warden of the district will be instructed to issue the permits for picked men of the game club to patrol with "gun and dog" vegetable fields threatened by pheasants and to accompany them. The club is going to suggest to the Game Commission that the Game Warden issue the permits, but they say they do not have to be "policed" by the warden while they carry out the job.

They said they will be working in co-operation with the field man of the Interior Vegetable Marketing Board and that they will patrol the lands he says are endangered. "We don't want the game warden accompanying us like a watchdog. And we don't want the pheasants we shoot if that's what they are worrying about," was another expression of the interior body.

Regarding amunition for this effort the executive made arrangements with the local rationing representative who, according to the information of the Game Commission, will be informed of the amount of shells available. "The amount is believed to be limited," the Commission's letter stated. Shells have been completely exhausted from a retail point of view in this city, the executive reported.

Questionnaire Supplied Vegetable Growers

It was said at the meeting that this only way they could influence the head of the Interior Vegetable Marketing Board was through the "deal which" has been authorized by the "Game Commission." It was further revealed that the Marketing Board is sending out questionnaires to their growers asking them to submit information as to the amount of crop loss they have suffered from pheasants; the time they have lost patrolling their lands; the lack of co-operation they have experienced from game wardens, and other points to give the Marketing Board a better case in being awarded a permit to shoot pheasants bothering crops.

According to the letter sent to the Game Commission, asking that the Vernon Club be allowed to take this step, the chief concern of the work of patrol for crop protection will take place on Japanese tomato lands, as the Japanese cannot be in possession of fire arms. However, their will will be carried out wherever the Vegetable Board's field man feels crops are threatened.

A number of the executive, very emphatic that the farmers are not always just fair about the so-called "pheasant pest." One member said that a grower in the district was complaining one day about pheasants destroying half of his corn crop. When he investigated further he found that the plants died from out worms embedded in the roots. The planted kernel was still in the ground.

Citizens Warned to Order Winter Fuel Without Delay

Grave Situation Lies Ahead Unless Bins Filled This Summer; Shortage Forecast

People who rely on coal to heat their homes will more than likely become bitter chilled if the 1944-45 winter proves to be severe, and they fail to have their homes filled with fuel before the mercury starts to drop next fall.

This was a statement made by T. Marshall, B.C. Representative of the Coal Controller, Vancouver, who, with D. M. Smith, District Fuel Officer, Penticton, toured the valley last week on a province-wide program designed to impress upon the public the seriousness of a coal shortage in the West, and the necessity of "paying heed" to the vast publicity which is urging them to purchase fuel before winter.

Coal production has been at a low level in the West during the past two years, and it had not been for the millions of tons of coal that have been consumed in the West, and the necessity of "paying heed" to the vast publicity which is urging them to purchase fuel before winter.

Coal production has been at a low level in the West during the past two years, and it had not been for the millions of tons of coal that have been consumed in the West, and the necessity of "paying heed" to the vast publicity which is urging them to purchase fuel before winter.

SCREEN FLASHES

Fildom's shining new comedy sensation, Danny Kaye, makes his screen debut in the technicolor production "Up In Arms," which shows at the Capitol in Vernon today, Thursday, Friday and Saturday, July 6, 7 and 8. The film has played in the box offices and throughout the film theatre virtually rollicks in laughter. Kaye is cast as a neurotic elevator boy who is sent to the front lines of the U.S. Army on being forced into a uniform. This is the basis of the story which is surrounded by wealth of screen novelties, five notable song numbers, and a dance sequence of Oriental splendor. Playing beside the deft-footed and hilarious comic freshman, are three of Hollywood's loveliest, Dana Andrews, Dinah Shore and Constance Dowling.

"Around The World" is the title to a new Kay Kyser screen offering at the Capitol Theatre on Monday and Tuesday, July 10 and 11. The famous band leader is cast in the midst of a globe-encircling caravan of girls, songs and musical entertainment. The picture is really a preview of Kyser's own idea to take such an entertainment unit on tour of foreign lands after the cessation of hostilities makes it possible for him to stage his weekly broadcast from such places. Mischa Auer, Marcy McGuire, Kyser's Ish Kabibble, George C. Scott, Joan Davis, are the main music-comedy stars cast with Kyser and his band.

The film that has aroused probably more comment and curiosity than any in years, "Fiesta and Fantasy," starring Charles Boyer and Barbara Stanwyck, plays at the Capitol on Wednesday and Thursday, July 12 and 13. The film is unlike any previous screen venture. It has an element of novelty, stirring surprise, and a gripping, gripping entertainment, with a strange dramatic sense. Many notable stars appear as the multiple plot unfolds. They include Bob Benchley, Betty Field, Robert Cummings, Edward G. Robinson, and others.

Today, Thursday, Friday and Saturday, July 6, 7 and 8, the Empress theatre will be showing a daffy-drama, "What A Man," at which laugh galore are guaranteed. John Dwyer, one of Hollywood's best juvenile comedians, heads the cast, with attractive Wanda McKay as his leading lady. The leading man is cast as a timid bachelor who returns to his home to find a gorgeous blonde in his quarters. Here is where the story starts. The rest is a fulfilled secret until the show opens at 8:30 o'clock.

Movie-goers will have a chance to see the original, Ted Lewis in "Is Everybody Happy?" at the Empress on Monday, Tuesday and Wednesday, July 10, 11 and 12. The famous radio star will storm the screen in one of the most sensational musical films in a long time. The supporting cast includes Nan Wynn, Lynn Merrick, Michael Duane and many other celebrities of song and dance. For a second feature on these dates the Empress will show "The Sultana," a comedy-drama of colorful events centering about the Middle East with Ann Corio in the leading role. The comedy attractions of Charles Butterworth gives the film a definite fun spirit, together with the radio team of Tim and Hene Ryan.

Kamloops Hearing On Adams River Power Question

KAMLOOPS, July 1.—Adams River may be closed to any power development of power in the future by actions which are now pending, according to information which came before the city council at their last meeting.

The threat to power development in the years to come goes even further, it seems.

It appears the International Sockeye Salmon Commission has plans for making the Fraser River system—excepting all its tributaries—into a great salmon spawning area, and if these plans are carried through the use of any of the streams for generating electric power would be barred.

This information came to the city through the medium of a hearing which is to be held in Kamloops today, Thursday, July 6, Adams River. The Adams River is a tributary of the Fraser River and is a source of increased electric power. It is understood the fisheries commission objects to any works along the river, and if it prevails the stream would be exclusively for the benefit of the fisheries.

An Mayor C. E. Williams was in convention today at Victoria with Premier John Hart on the matter of Adams River power, the question was laid over until the former's return from the east within the next few days. At that time a special meeting of the council will be called if necessary.

Serious Accident Averted at Lumby

LUMBY, July 5.—At Close, Ball Lumber Company yard, a narrow escape occurred on Thursday morning when a sling load of 30-foot poles slipped over the car he was loading in the yard.

As the poles slipped from the sling, Close jumped from the car and endeavored to crawl under it, one of the poles falling across his left arm. In his effort to get under the car, he badly chipped his right elbow.

Close was taken immediately for medical attention in Vernon where an examination showed the bones were broken, although the left arm was seriously swollen and bruised.

It is expected that he will be back on the job at the end of three weeks.

Variety of Fun at Lumby's Dominion Day Celebration

LUMBY, July 5.—The Lumby Community Club annual Dominion Day Celebration was observed as usual this year, with feature attractions which included a softball tournament, foot races, tug-of-war, horse-shoe pitching and a ladies' softball game.

Lumby men emerged winners of the softball tournament by a 4-1 victory over a Kelowna Pro-Rec team in a game which was cut to six innings by rain which had threatened all afternoon. Sigale's Tug-of-War team out-pulled Bell's in a downpour of rain.

In the morning, a Lumby all-star team won revenge over Vernon. Fruit Shippers by a 10-3 score after a defeat by the same team in Vernon the previous Sunday. In another game, Kelowna Pro-Rec easily defeated an Infantry School Team from the Coldstream.

A fair crowd attended the afternoon sports while a good number enjoyed the dance which followed the evening. Music was by the Vernon High School Orchestra.

Assisting with the concessions were Lumby Women's Institute, Pythian Sisters and Knights of Pythias.

Winners of other events follow: Ladies' Nail-Driving Contest—Mrs. E. Kemby of East Kelowna.

Boys' 50 yards, 15 and under—Martin O'Neill.

Ladies' 50 yards, 30 and over—Mrs. A. Harvey, East Kelowna.

Men's 100 yards—J. Walsh, A. Davis, both of Military Camp.

Men's 220 yards—A. Davis, J. Walsh.

Men 40 and over, 50 yards—E. Wyle, Lumby.

Horse Shoe, singles—Ken Worth. Horse Shoe, doubles—Ken Worth and Wallace Ward.

Proceeds of the day will be used by the Community Club for operating expenses for the latter part of the year.

Mrs. W. Ogilvie and children left last week for Saskatchewan where they will visit relatives for a few weeks.

Mr. and Mrs. G. Morrison are being congratulated on the birth of a son in the Vernon Jubilee Hospital on Thursday, June 29.

Sgt. and Mrs. Novo Derry, of Red Deer, have been spending his furlough with relatives in Lumby.

A. Horton of Ounger, Sask., is a summer guest of her daughter, Mrs. E. B. Severson.

Wilfred Carter, R.C.N., is visiting his wife and family in Lumby for a few days, while on transfer from Toronto to Vancouver.

Mrs. F. White, of Oyama, spent the Dominion Day weekend with her sister, Mrs. L. J. Gooding, of Lumby.

E. Severson left on Friday for Victoria where he will attend the Provincial Summer School.

Cpl. T. Moore, R.C.A.M.C., Petawawa, has spent the past 10 days on leave with his mother, Mrs. V. Moore.

The Lumby Red Cross Society is sponsoring a Garden Party at the home of Mr. and Mrs. W. J. Shields on Friday afternoon and evening, July 14.

Movie-goers will have a chance to see the original, Ted Lewis in "Is Everybody Happy?" at the Empress on Monday, Tuesday and Wednesday, July 10, 11 and 12.

The famous radio star will storm the screen in one of the most sensational musical films in a long time.

The supporting cast includes Nan Wynn, Lynn Merrick, Michael Duane and many other celebrities of song and dance.

For a second feature on these dates the Empress will show "The Sultana," a comedy-drama of colorful events centering about the Middle East with Ann Corio in the leading role.

The comedy attractions of Charles Butterworth gives the film a definite fun spirit, together with the radio team of Tim and Hene Ryan.

Sigale's Champions Lumby Ball League

LUMBY, July 5.—Sigale's Lumby softball team emerged as champions of the local league last week by winning their last two league games. On Wednesday they took a close encounter from Gunter in the last inning after being down nine runs at the end of the third inning. On Friday they overcame the Mill Road team to win the championship in a close finish.

Final standings in the league follow:

	P	W	L
Sigale's	6	3	1
Shunter's	6	3	1
Mill Road	6	3	1

Local Man "Digs- In" in Normandy

Among the many letters now being received from the battle fields of Normandy, telling a few uncensored items about the gigantic struggle, is one from Gunner Douglas Burton, son of Mr. and Mrs. A. R. Burton, of Vernon.

Gunner Burton writes in humorous vein, recalling training periods in England when the instructors told him about the day he would be in action and would have to "dig in."

"Well, you don't have to tell us about it now," Gunner Burton wrote, "All I saw the first day was shovels and picks flying high as we established ourselves on the beaches. The fact that the fox holes of the South Pacific war have nothing on the 'bear dens' the men of the Expeditionary Force dug when they landed on the Normandy coast in the dawn of that memorable morning of June 6.

Gunner Burton is a tall chap. He said he would not be needing parcels while he is with the forces that are smashing at the Huns. "I carry everything with me, kitchen and all. Because I am tall it seems that the army is trying to squeeze me down to about four foot two inches in height!" he wrote jokingly.

In closing he told his parents that now he is in the heat of battle he feels closer to home than at any time since he joined the army. He was not referring to distance, but to time. The day he will be home is now nearer than ever before, he feels.

New Plan for Marketing Live Stock in B.C.

What may prove to be an historic meeting took place a few days ago in the Vancouver Hotel when the B.C. Live Stock Producers' Co-operative Association entertained representatives of the Meat Packing Industry in B.C. at a luncheon.

Brian K. deP. Chance, Manager of the Douglas Lake Cattle Company, representing the Live Stock Association, attended, as did directors, H. S. Olench of Merritt, Alan Cameron of Ashcroft, Alex Bulman of Kamloops, J. C. Lemman, manager of the Yards and Sales in Vancouver, and R. H. Carson, who has been active in the organization, and is secretary.

A number of representatives of the packing industry were present, including representatives from neighboring provinces, as well as British Columbia.

Mr. Chance explained the meeting was arranged as a follow-up to the earlier meeting held during the Kamloops Bull Sale and Fat Stock Show. He acquainted his audience with the progress made by the Live Stock Association, and outlined to them the suggested plan of operations in the hope that they would co-operate with the Association in the marketing of cattle and lambs which have been produced in the Province.

In order to avoid duplication of effort, and consequent expense, said Mr. Chance, particularly owing to the shortage of gas and difficulty in acquiring tires, the Association was engaging competent field men who will look after the grading and shipping of cattle and lambs. Packers could thus place orders with the manager in Vancouver, direct to the general discounter, who would then arrange to ship the goods. The Association believes that the adoption of this plan will

make a new era for Live Stock men in this Province.

It is expected the plan will result in orderly marketing, which will be of advantage to the Packers, in that it should remove the heavy fluctuations in the prices the Packers are required to pay. At the same time, they are required to operate under the ceiling adopted by the W.P.T.B.

A large percentage of the beef and lambs shipped to the Vancouver Packers, have been handled through the Association.

Columbus was the first to call Cuba "Pearl of the Antilles."

Canadian Contribution For U.N.R.R.A.

Herbert H. Lehman, Director General of the United Nations Relief and Rehabilitation Administration (U.N.R.R.A.), today from Mr. J. H. Patterson, Minister of the Canadian Embassy, and chairman of the U.N.R.R.A. Committee on Supply, a check for 10 per cent of the Canadian contribution of \$77,000,000 toward the work of the international relief agency. The Canadian contribution includes, besides this present cash payment, \$

Topic: Credit Unions

Dominion Day Quiet Holiday in Vernon

Cool and stormy weather rather dampened the ardor of holiday-makers on Dominion Day in the Vernon district. While literally all roads led to Revelstoke and Kamloops, where many residents attended special events, not forgetting the usual celebrations at Lumby, a great number of Vernon people spent the weekend at their summer camps. Storms caught up with fishermen, picnickers and others, who had planned on timely pastimes for the long weekend. Stores reported doing heavy business on Friday in preparation for the holiday, and demand for summer commodities and delicacies was high. A few district folk visited Vernon on Saturday, but generally speaking, this day spent a quiet Dominion Day weekend.

System of Credit Unions Subject of Address Here

Vernon citizens will have an opportunity to hear more about credit unions this evening, Thursday, July 6, when Thomas A. Switzer, Assistant Inspector, British Columbia Credit Unions, will address a meeting in the Women's Institute Hall at 8 p.m. Mr. Switzer is no stranger to Vernon audiences, having visited here before. Credit Unions provide a system whereby people with no collateral security can obtain small loans at low rates of interest. Among 22 B.C. men serving overseas, which have been reported on this is Cpl. John Sebastian Resch, son of George Resch, now of Vancouver, who is slightly wounded. Cpl. Resch enlisted in Salmon Arm and went overseas a year ago.

Association Meets in Kelowna

Valley Teachers Weigh Higher Wage Proposals

The salary committee of the Okanagan Valley Teachers' Association met in Kelowna last Thursday, June 29, and discussed the proposal they will present to the Valley School Boards Association for the revision of the current wage schedule. Thursday's meeting was originally planned jointly between the two associations, but the teachers were informed that the School Boards require three months notice before they act on a revision of the wage schedule. It is expected that an agreement will be met before the next school term.

The teachers of the valley are anxious to have the wages equalized with those paid in other parts of the province. They also want to see more salary protection given to long-term teachers and attractive minimums established for beginners. Chairman Gordon Lindsay, of the Vernon School Board, said on Tuesday that the salaries paid Valley teachers are distinctly below those paid in Vancouver, Victoria, New Westminster, Nelson and Trail. Present at the meeting in Kelowna Thursday was the Chairman of the Salary Committee, C. E. Clay, of Armstrong; J. W. Logie, Kelowna; D. H. Campbell, Rutland; A. K. McLeod, Summerland, and H. D. Fritchard, Vernon.

Boundary Dispute Leads to Assault

A dispute between two Indians over property rights on the Okanagan Reserve No. 1 led to an assault charge against Jimmie Antoine in District Police Court last Thursday. Antoine, who is an elderly man, was found guilty of assaulting Harry Bisset by striking him in the forehead with a shovel and was sentenced to 30 days imprisonment. Grievance between the two Indian land owners had long existed according to the evidence presented. The boundary line between properties had been defined in 1880 and in September of last year. But Antoine refused to agree with the decision of the Indian Agent and the Reserve Indian Council who established the line. He continued to hold possession of land over the line into Bisset's property. "Volunteer" grain was growing in the field when Bisset went out and commenced to dig post holes and erect a fence over the rightful division between the two ranches. Antoine saw him and ordered him off the line. Bisset said he was prepared to leave, in order to avoid trouble. But as he bent down to pick up his shovel Antoine wielded the shovel and struck him on the forehead. Frank Smith conducted Antoine's defence. Sgt. R. B. Nelson acted for the prosecution. Milmon E. Little, Government Agent, adjudicated in the absence of Magistrate William Morley, who is at present on his annual summer vacation. Bananas, grapefruit, grapes, lemons, oranges, tangerines and tomatoes are berries to a botanist.

June 30 Casualty List Contains City, District Servicemen

Included in the 910th R.C.A.F. casualty list of the war, issued on June 30 at Department of National Defense Headquarters, Ottawa, is the name of P.O. Walter Raymond Finlayson, son of Mr. and Mrs. N. G. Finlayson, Okanagan Landing, who is listed as "Missing on Active Service After Air Operations".

The Vernon News carried a story to this effect as soon as word was received by his parents a few weeks ago. In the 904th R.C.A.F. casualty list appears the name of P.O. Kenneth Tooley Schubert, whose wife resides at Armstrong. A similar news story was carried when his wife received notification of her husband's death. He is listed as "Killed on Active Service" of W. J. Dunne, of Nott Hill, is seriously ill overseas. Capt. John Edward Cooke, Canadian Armored Corps, son of Mrs. Winifred M. Cooke, Armstrong, is listed as slightly wounded, in June 30 Army Casualty List.

Town and District

Mrs. H. R. Denison, of this city, left this week to make her home at Hamilton, Ont., for an indefinite time. Mrs. Denison's husband is a commissioned officer in the administration service of an R.A.F. station in eastern Canada.

Mrs. Archie Fleming, accompanied by her daughter, Miss Betty Fleming, left on Tuesday evening for Halyon, where they plan to spend a week.

Softball Teams Near Play-offs

Teams in the current civilian-army senior softball league are making all-out bids for play-off positions as the league quickly draws to a close. At present, play-off dates have not been arranged. The six clubs are working off postponed games each Monday, Wednesday and Friday evenings at Polson Park commencing at 6:30 p.m. League leadership has been held to date by the Field Ambulance team with the Infantry School second. Two civilian clubs, B.C. Fruit Shippers and Nick's Aces, have been disputing third position, with the Military Hospital boys trailing in fourth place. The High School and Ordnance Corps are happily sharing the cellar alternately.

Commandos Fight Grass Fire in Manoeuvre Area

Commandos of the "Battle Drill" School went to war again yesterday, Wednesday, against a threatening grass fire in the vicinity of Housley Bay on Long Lake, directly behind the Battle Drill school in the Coldstream. The high winds of yesterday aggravated the fire, but the soldiers were reported to be gradually subduing the flames by late afternoon. Smoke poured from the valley and the fire spread quickly through the dry grass. Last year a much more severe blaze broke out in the same area where the commandos were in training. The flames rapidly swept up the side of the hill to the north and threatened to burn the property of residents in the area. Yesterday these people looked critically at the same hill, expecting a moment to see smoke-like fire edging towards their homes.

Always Ready

These men of a Canadian outpost in Normandy keep their eye on the Hun, ready for instant action. Nearest the camera is 1/Opl. R. W.

Laura Rositch Elected Queen

Kamloops Stampede Riot Of Fun, Revelry, Thrills

With Laura Rositch Kamloops Stampede Queen, the three nights of carnival and two days of rodeo events were a riot of fun and revelry, and terminated late Saturday night, Dominion Day. True, the weather left much to be desired, but it takes more than a drop of rain to dampen the ardor of western folk, especially when there is real riding to be seen. Gus Gottfriedson, of Okanagan Indian Reserve, was hailed winner of the B.C. open championship in the cowboy's bucking horse contest with association saddle, and was acclaimed the main event of the stampede.

There were bucking championships, bareback, saddle, steer riding, decorating, calf roping and wild cow milking, which brought back the old days of the frontier West. A number of Vernon people were noticed among the crowds which thronged the arena grandstand and bleachers and along the railroad track, tops of box cars and rail fences, which were packed with an enthusiastic cheering crowd. Slim Doran, of Douglas Lake, took the B.C. championship in wild-steer decorating with John Gottfriedson of the Okanagan Indian Reserve, carrying off the championship in the bare-back bucking horse riding.

There was honest, not stage, glamor on Kamloops streets as cowboys and cowgirls in their high-heeled boots, spurs and chaps with jingling spurs clumped up and down the sidewalks. Indians paraded in their gay finery, rich purples, blues, scarlets and yellow. Music from a loud-speaker flooded the air in festive lifts of lively and timely western songs and ballads.

Riders came from all corners of the Province, with the program of events in the capable hands of Dewey Hinds, with the famous Calgary Red, (whose real name is Joe Brazeau), and Jimmy Robillard, as judges. The three-day spectacle was sponsored by the Kinsmen, headed by genial, bearded Frank Richards, general chairman and manager. The proceeds were used for Kinsmen's many charitable projects, including their Milk-for-Britain Fund.

Legion Seeks Own Plot in Cemetery

The Vernon Branch, Canadian Legion, has approached the City for Blocks 6 and 7 in the Cemetery for a burial plot for members of the Legion. Block 14 they suggested be set aside for soldiers, who are not members of the Legion. This matter was raised at Monday evening's lengthy session of the City Council, and is being considered by the cemetery committee.

Pertaining as well to the City's holdings governed by the Parks committee, congratulations were tendered by the B.P.O.E. on the "excellent appearance" this summer of Polson Park, which they referred to as a "beauty spot". At the same time, they pointed out the necessity of providing recreational facilities for children, such as see-saws, swings, sand-pile, and other amusements, which would create an even "greater attraction". George Dungeat, city taxpayer, serving overseas, wrote regarding a drain going down a gully adjacent to Mission Hill onto his property. He is willing to share any expense involved in connecting this with a sewer. "Every consideration will be given to him; he is serving overseas and is not here to look after his own interests," promised Mayor D. Howrie, who presided. Alderman C. Johnston will look into the matter, this coming under his department.

The City Hall committee is to arrange a meeting at an early date with the Civic Employees Union, Local Number 2, on motion of Alderman E. B. Cousins. Their secretary has written requesting this.

The Interior Provincial Exhibition, scheduled for September 19 - 21 next, is promised by authorities to be the "most successful exhibition yet," according to a letter read round the Council table. The city will insert the usual advertisement in the Association's booklet. The Council, on motion of Alderman E. B. Cousins, authorized a Doctor's examination for catarrh on a former Vernon resident in reply to a request from the Canadian Institute for the Blind. The fee for the test in question is \$3. The Water-works Department is authorized to purchase a 1½-ton truck. This order has been listed for months past and in view of the priority which exists, it was considered a wise move to complete the deal when the vehicle is made available.

City Solicitor C. W. Morrow will endeavour to settle a tangle regarding the sub-division of property by a resident on Pleasant Valley Road. Some confusion exists regarding the boundary.

It was suggested that the Post Master be contacted to see whether it would be possible to have both sections of the Post Office doors open. In rainy hours, congestion often results. The doors are very heavy in any event; the Council agreed.

Weatherman Says

That last Thursday, June 29, was the hottest day so far this year, the mercury reaching 93 degrees. Temperatures for the week of June 28 to July 4, inclusive, follow:
Max: 87; 93; 79; 68; 69; 79; 84.
Min: 54; 58; 63; 51; 50; 44; 51.
Precipitation: 0.11 inches.
Hours of Sunshine: 10.9; 10.8; 6.1; 2.5; 4.6; 13.4; 14.5.

Many Guests At Homes in Armstrong Area

ARMSTRONG, July 5 — Mrs. Keith Pellet and son Tony, with Mr. and Mrs. Poole and little Louise, of Vernon, left on Monday to spend a couple of weeks at Mabel Lake. Miss Betty North, of Calgary, is visiting at her home on Power House Road. Jabe Barnby, of Vancouver, is a guest at the home of Mr. and Mrs. F. Shors. Mrs. Bertha Ball with Miss Helen Douglas of New Westminster, both members of the Kelowna School staff, spent a few days here with Miss Ball's sister and brother before leaving to attend Summer School.

Ken Menefee left on Monday for Vancouver where he will report to the R.C.A.F. Mrs. Beatty, of Prince Rupert, is visiting at the home of her cousin, Mrs. Beaubien. AB. H. D. Steves, R.C.N.V.R., enroute from his home in Vancouver to Halifax, is spending a few days at the home of H. F. North and family.

Bill Clayton left on Monday evening for Vancouver. LAC. F. M. Newson, of Lethbridge, is visiting his brother-in-law and sister, Mr. and Mrs. Neil Bosomworth. Mr. and Mrs. L. E. North, accompanied by Marjorie and Ted, arrived on Sunday from Wells, and are visiting Mr. and Mrs. F. W. North. Other guests at this home are their daughter, Mrs. R. J. Howse, and her two sons, of New Westminster.

Miss Dorothy Robb, of Edmonton, is a guest at the home of Mr. and Mrs. Neil Bosomworth. Mrs. Elmer Webb arrived last week from Vancouver. Mr. and Mrs. Arthur Robertson and daughter, Miss Ella Robertson and niece, Miss Doreen McKenzie, left Monday to spend three weeks at Swansay.

Master Sergeant and Mrs. James Lease arrived on Monday to spend a couple of weeks with Mrs. Lease's parents, Mr. and Mrs. C. Marriott. Mr. and Mrs. William Austin and daughter, of Port Moody, arrived Sunday to spend a week with relatives.

Future for Youth

(Continued from Page One)

pared for them in language they might understand. He suggested that youths be given an opportunity to visit every church before joining one. Sgt. Major C. F. Hunt, education officer of the Engineers and Ordnance Corps at the Vernon camp, spoke on employment. The aim of the organization, he said, would be to avoid a repetition of the depression years that followed the war. He recommended raising of school age to 16, extension and improvement of the Dominion Employment service for youths; a widening of the opportunities of vocational training in the school; modernization and extension of apprenticeship system; encouragement of employers to hire youths; reduction of pension age; reduction of labor days; a program of recreation to prepare the body for employment; opening up of membership restrictions in trade unions.

Committee heads volunteered at Monday's meeting. At each monthly meeting the progress of the various committees will be reported. The deadline for completion of a brief for submission to the Canadian Youth Commission has been set at November.

About 30 city organizations are represented on the Vernon Youth Association. Although Monday's session was not attended by a complete list of members the group's work got off to a good start.

Interest in this work applies to members of the Armed Forces as well as civilians. Personnel of the Vernon Military Camp were requested to attend the meeting by the area command whose orders came directly from the Pacific Command.

Many worthwhile suggestions for the program the Association might follow were offered by Mrs. F. W. Patterson of the Y.W.C.A. Women's House, Vernon, which organization is interested in youth work. The Canadian Youth Commission is the movement across the Dominion and it has been in existence two years. The idea originated from the National Council of the Y.M.C.A.

Pro-tem chairman, Roy James Dalton, who was elected to that office at the initial meeting here on June 10, is at present on leave days, and was replaced at Monday's meeting by Sgt. Major Hunt.

Mrs. A. Mawhinney Succumbs

Former Vernon Bank Manager Bereaved

Robert H. Mawhinney, former manager of the Vernon branch, Royal Bank of Canada, suffered bereavement on Thursday, June 29, when his mother, Mrs. Annie Mawhinney, died in Nanaimo. Mr. Mawhinney, with his wife and family, moved to Vancouver Island last spring, where he is manager of the Royal Bank of Canada in that city. Mrs. Mawhinney came to Nanaimo from her native Broomfield, Yorkshire, England, 38 years ago. Four sons survive. Lt. Col. W. C. Mawhinney, senior Protestant chaplain of Pacific Command, Vancouver; Thomas, manager of the First National Trust and Savings Bank, Santa Monica, Cal.; Arthur A. of Cumberland, and Robert H., formerly of Vernon, now of Nanaimo.

Sgt. Alice Oliver, R.C.A.F. (W.D.), leaves tomorrow, Friday, for Eastern Canada, after two weeks furlough spent with her parents, Mr. and Mrs. W. J. Oliver, of this city. Mrs. Oliver was accompanied by her daughter, Mrs. George Morcor, Pte. Annie Oliver, O.W.A.C., stationed at Vancouver, arrived in Vernon on Saturday, and spent the weekend at her home here.

Mrs. Don Steele, and children, of Vernon, are vacationing with relatives and friends at Vancouver.

Miss Joan Yull returned last Friday from Winnipeg, where she spent three weeks with friends.

Mrs. W. D. McTaggart, and children, are in Vancouver spending a summer vacation.

Dr. and Mrs. Sam Hannah, and Mr. and Mrs. Arthur Maynard, of this city, spent the holiday weekend at Revelstoke.

Mrs. D. G. Skinner left on Wednesday of last week to visit her father, Mr. Simpson, and sister, in Yorkton, Sask.

Mrs. W. C. Morrison, of Kelowna, spent a few days of last week at the home of Mr. and Mrs. E. F. Little, of this city.

Mr. and Mrs. H. B. Horton of

FULL SPEED AHEAD FOR Victory!

SATURDAY, JULY 8th

Next Saturday, July 8, is the second in Vernon's Day - a - month War Savings Stamp Drives, when citizens will be asked by their favorite store to invest in the month's best bargain, a 25c War Savings Stamp.

Much water has gone under the bridge since the Stamp Day held on June 3. The long-anticipated Invasion of Europe has been successfully launched. News has come of men from our own Interior who are engaged in the life-and-death struggle against oppression and misery. Some there are who will return no more, or see this beautiful valley where they were bred.

Finance Minister J. L. Ilsley, in his fifth budget address, killed the compulsory savings tax, thereby putting more money into the pay envelopes of this city and district.

He did not do this with the idea of giving Mr. and Mrs. Vernon Citizen more money to spend. He said that the need this year for money is greater than ever, and "in a spirit of thankfulness," he said Canadians would be asked to invest even more heavily in War securities.

These twenty-five cent pieces are not gone. They are not spent. They are invested. These investments will prove their worth in the reconstruction period after the war. They will represent, in sufficient quantities, the trip; the motor-car; the new home home; the electrical equipment; and, most of all, the re-establishment of our men when they lay aside their uniforms and implements of war.

So your friendly store-keeper, who tries to serve you in the face of many obstacles and difficulties, will have displayed on his counter next Saturday merchandise which is unrationed; on which no price-ceilings are imposed; no shortages exist.

Investments in Victory is the only way to describe the little red squares which he asks you to buy, to back your own Interior men in these crucial and history-making days.

**"Back the Invasion With
An Extra
War Savings Stamp"
THE DAY'S BEST BUY!**

Our Part in the Invasion

Mrs. Vernon Housewife—when your grocer, butcher, store-keeper, hands you back 25c in change next Saturday, made possible by a wise government which has imposed price-ceilings for our protection during this critical period, invest that coin in a War Savings Stamp.

In this way, you will Salute the Soldier, who, for you and yours, is today prepared to sacrifice his life that you may live in freedom, safety, happiness.

Just think of the cost of an invasion on the scale made on June 6! Of the constant stream of reinforcements necessary to maintain our beach-heads, to press on and ever onward—forward to Victory.

In peace and security, let us, who remain at home, put our weight behind the Invasion, and see that this War Savings Stamp day, the first since the Allies made their landings in France, will be a day which will stand out in the annals of the War Finance Committee.

VERNON SHOPPERS! LOOK BEYOND TODAY! TOMORROW'S HORIZONS LOOK WIDE AND BROAD

Do not be caught in that day without any provision for the wonders which will then be made possible for civilians. The world will shrink under the speed of air travel; intrepid airmen will blaze new trails; wonderful new gadgets and contrivances will be made available for our homes.

Think and plan for the future; lay aside some savings wherewith to enjoy the bright and brave new world beyond today's troubled and cloudy skies.

Invest to the limit in War Savings Stamps. Thus you will be serving two ends; hastening the day when we lay down our arms; and speeding the victorious homecoming of our dear ones.

Young brides; save today for the homes of tomorrow. You have your dreams of the little house on a quiet street, and your brand new husband re-established in civilian life. Save today for the shining future.

BUY WAR SAVINGS STAMPS. HELP YOUR SOLDIERS IN FRANCE!

Now Let Everybody Fight!

Everybody fight! Every citizen put their weight behind the Invasion. Salute the Interior Soldier on the beach-heads of France.

If someone was brutally attacking your husband, son, brother, on the street in front of your home; would you just go on with your little duties, pleasures, and not do anything to help him?

Your dear ones are fighting for their very lives in France and Italy. If supplies and materials are not forthcoming, they will know that you are placidly continuing your pleasant way of life "back home." Put your weight behind the soldier on the Normandy beach-head; on the Italian battle front.

Invest to the LIMIT in War Savings Stamps. Use the money put back into the pay envelope by the Finance Minister to hasten the day when war shall be no more!

Pruritis—Intense Itching

Relieved quickly by this Medicinal Ointment

There are two forms of itching which are especially distressing. First pruritis vulvae—from which women suffer and second pruritis ani—itching at the rectum from piles, pin worms or varicose veins.

The causes of both these forms of intense itching are often difficult to locate but what you do want, at once, is relief from the severe and depressing itching.

Then let Dr. Chase's OINTMENT help you for it brings relief almost as quickly as applied. Once used it will always be kept at hand for quick use when the need arises. 60 cts. a box. Economy size jar \$2.00.

Dr. Chase's Ointment

WAR-TIME SAVING for NATIONAL and PERSONAL Security

Every thoughtful person agrees that in this time of war SAVING should be practised intensively, and for the following reasons:

- 1) Financing the war
- 2) Keeping prices down
- 3) Providing for the future

By saving instead of spending now, you will help yourself and your country—provide for Canada's security today and your own security tomorrow.

Association to Improve Dairy Cattle

District Farmers Form Herd Improvement Group

ENDERBY, July 3.—For several weeks farmers in the North Okanagan have been making plans for a Herd Improvement Association. Meetings have been held to discuss the project, and a personal canvass conducted in order to have as many details as possible before any definite steps were taken.

For many years, district farmers have realized the need of improving the quality of their herds, as their chief source of livelihood is based on the quality of their dairy cattle. In the northern part of the district the chief industry is dairying, and farmers contrary to the idea prevalent in past years, now realize a poor cow is a liability, and takes as much care as her A-1 milk-producing sister. With these facts in mind for some time, many farmers have been keenly interested since the first initial meeting of the Herd Improvement plan, and have anticipated with interest the definite organization of such a plan in Enderby.

Thursday evening the North Okanagan Herd Improvement Association was formed, when delegates from Salmon Arm, Armstrong and Enderby districts met in the City Hall. Fifteen delegates as well as interested farmers were in attendance, and the constitution considered and adopted. On the basis of the constitution, a board of Directors was formed, three from each of the above mentioned districts. The general meeting adjourned with the election of directors, who then held their first meeting.

It was decided first to secure actual memberships and to call for more applications from those interested in operating the center or working as assistants, since at least three men will be necessary. It is hoped to be able to begin giving service by October first.

Those elected to take office were: president, D. Jones, Enderby; vice-president, J. Fowler, Armstrong; secretary-treasurer, Rev. W. J. Seider (pro tem.); Directors: E. Dock-stetter, A. Baynes, T. Olsen, G. Greig, R. McLeod, J. Robertson, A. G. Grayson.

Dr. J. Kope, accompanied by Rev. H. C. Phillips, pastor of Ruth Morton Memorial Church at Vancouver and Rev. E. V. Apps, of Vernon, left by car at the end of the week for a camping holiday. During Dr. Kope's absence, Dr. R. Haugen of Armstrong has been making daily trips to Enderby to assist with Dr. Kope's practice here.

Friends of Charlie Brown bade him au revoir this week when he left for Eastern Canada. He will eventually make his home in Ireland. Mr. Brown has been a resident of Enderby for many years, and during that time has made a large number of friends and business associates, who express regret at his departure. During his years of residence here Mr. Brown carried on a large wood and coal business, also did considerable hauling.

Mr. Brown has a warm spot for Enderby, and he said that as soon as circumstances permitted, he would return to the Okanagan and make his home in Enderby.

G. E. McMahon was a business visitor to Kelowna on Thursday.

Mrs. E. Quesnel, who has been on the High School teaching staff at Vernon during the past few years, made a short stop-over in Enderby before leaving for the Coast where she will attend Summer School. Mr. and Mrs. G. McMahon and daughter, Miss Helen McMahon, spent the weekend visiting at the home of Mr. and Mrs. H. Chomarat.

Mr. and Mrs. Jim Sutherland, accompanied by Mrs. Sutherland's sister, Miss Evelyn Scott, motored to Mabel Lake on Saturday where they enjoyed the holiday weekend camping at Dolly Varden Beach.

Nurse Goes to Saskatoon
Miss Blatz, who has been employed on the staff of the Enderby General Hospital during the past year or so, left on Thursday for a month's vacation in Saskatoon. Miss Blatz will spend a considerable portion of her holidays as camp nurse at Arlington Beach at Saskatoon, where the Baptists hold their summer camp. Miss Blatz was accompanied by Miss Cora Kope, daughter of Mr. and Mrs. J. Kope, who will enjoy a vacation with her grandmother and other relatives.

A. B. Greig, manager of the local branch of the Bank of Montreal, leaves on Saturday for a few weeks' vacation. Mr. Greig, accompanied by his two daughters, Miss Joyce Rutan, and "Jackie", left at the end of the week for the southern part of the Valley where they will be employed during the coming months in the orchards. Mrs. Rutan was accompanied south by Miss Mary Farmer, who will assist with the fruit crop in the southern part of the Valley.

During the absence of Rev. E. V. Apps, who will spend the next six weeks at Sunnybrae, the recently purchased camping spot for members of the Baptist Church, the services in Enderby will be conducted by Rev. H. C. Phillips on Sunday mornings. Mr. Phillips is pastor of Ruth Morton Memorial Church, Vancouver.

Mr. and Mrs. F. S. Rouleau were campers at Mabel Lake over the holiday weekend.

Mr. and Mrs. Jim Staken arrived from Vancouver at the end of the week for a short holiday at the home of Mrs. Henry Walker, and other Enderby friends. Since the beginning of the war, Staken has been serving with the army at Coast points. Both Mr. and Mrs. Staken are well known in Enderby, the latter having operated a beauty parlor here prior to her departure for the Coast last season.

Staken has lived in Enderby with his mother since a small boy. Other visitors at the home of Mrs. Henry Walker last week were Mr. and Mrs. William Wamsley of Cranbrook, who made a stop over with Mr. Wamsley's sister, before leaving for Mission where they visited with his parents, Mr. and Mrs. Wamsley.

Mr. and Mrs. Donaldson, accompanied by their son Bob, motored from Revelstoke on Saturday to spend the weekend visiting at the home of Mrs. Donaldson's mother, Mrs. M. M. Foot. On their return trip Friday evening, Mr. and Mrs. Donaldson were accompanied by Mrs. Foot who will remain there for a few weeks' holiday.

Sprinkling regulations were now enforced in Enderby, and those wishing to use sprinklers have to abide by hourly orders. Previous to this time, sprinkling in Enderby could be carried on at any time during the day, but it is now found necessary to preserve the water supply during the hot months.

Mrs. McCampbell, who has been spending a short holiday with her mother, Mr. and Mrs. T. Morton, returned to her home at

French Folk Help The Allied

Confirmation of reports that the French people are assisting the Allies as best they can in their smashing attacks on Hitler's European citadel is given in a letter from the invasion front by Pte. Janicki of a Canadian Scottish Regiment.

Pte. Janicki, son of Mr. and Mrs. G. P. Janicki, of 321 Lake Drive, told his parents that the men in his section met many French people as they drove inland from the beachheads on the northern Coast of France.

"These people gave us wine, milk and vegetables, and guess what?—I sat up in a cherry tree, like the old days at home and devoured about two pounds of fruit," he wrote.

Pte. Janicki's letter was written with the sincere hope that the war will be ended soon. He undoubtedly complied the letter during his first rest after the rough crossing from England and the fierce battle for the beachheads.

"I cannot understand how I managed to escape the casualty list," Pte. Janicki wrote, with an indication that he has experienced the grim horrors of modern war. Possibly some of his comrades fell at his side as he fought on.

He confidently said that the Hun is beaten. He asks that people be proud "of every one of the millions of little things" that have gone into the formation of the Victory army, the Allied Expeditionary Force, and he asked that God bless the men who have died in service for their country.

"May it not be long before the Hun gives in, although, I am afraid it is not that kind of fighter," Pte. Janicki concludes.

14-Year-Old Girl Dies at Armstrong

ARMSTRONG, July 3.—On Monday, June 26, at 2:30 p.m., Rev. R. J. Love, conducted funeral services in Sage and Tully Funeral Parlors for Ruth Buchanan, who died on June 23 in the Armstrong Hospital after a short illness.

Ruth, who was the 14-year-old daughter of Pte. L. G. Buchanan, R.C.A.F.C., and Mrs. Buchanan, was born in Regina, and came with her parents to Northern British Columbia and later to Armstrong. She was a student in the Armstrong Consolidated Schools. Surviving besides her parents are two brothers, one at home; Marcus, in the R.C.E., Overseas, and one sister at home.

Grindrod Pupils in Enjoyable Recital

GRINDROD, July 3.—Music pupils of Miss M. Bing entertained friends in a recital on Friday night. The music was much enjoyed as were the songs of Miss A. Fyall. Prizes were won by Betty Halksworth and Yvonne Olson.

Miss Margaret Block, of Revelstoke, is spending a week at the home of her parents here.

Daisy Tomkinson spent the weekend at the home of her parents, Mr. and Mrs. A. Tomkinson.

J. Bailey, of Vancouver, is spending a short holiday here.

Emily Skyrme of the Royal Inland Hospital, Kamloops, is spending her vacation with her parents, Mr. and Mrs. T. R. Skyrme.

Bud Crandell and his daughter, spent the weekend visiting Grindrod relatives. He resides at New Westminster.

Mrs. W. A. Monk and children, spent Wednesday of last week with Enderby friends.

Mrs. M. Smaha paid a business visit to Kamloops on Friday.

Dejected Looking Prisoners

"V for vanquished" might be the title applied to these dejected looking German prisoners taken by French troops of the Fifth Army in Italy. Captured in the Castellote area, they are shown as they were marched into a prisoner of war encampment behind the lines.

Canadians Brave, Seasoned Fighters on Battlefronts

A number of men from this area fought with the Canadians that broke through the vaunted Hitler Line in Italy on May 23.

Some gave their lives. Others fell with severe wounds; many carried on.

The next-of-kin of these men will forever cherish a proud feeling that the Canadians took part in May 23 in handing to the Nazis one of the most decisive defeats they have sustained since Hitler commenced to spread his propaganda and later enveloped the world in the present conflict.

These sentiments are embodied in a letter from Gunner Jack Downing, Canadian Survey Unit, which took part in the memorable engagement.

Writing to his father, Arthur Downing, of Vernon, he says: "The Canadian Corps have justified their existence in Italy in breaking through the Hitler Line."

"The generals thought it would take a whole army to accomplish what one Canadian Corps did in the fight. The greatest compliment for the Canadians' part in the fight came from the Russians, who said, 'The Canadian Corps is the finest fighting force the United Nations have put in the field.'"

"The Americans lauded our boys conservatively, and the English extended high praise for our artillery, which is really something when you consider that the latter are more than proud of their own artillerymen."

Gunner Downing is serving in a survey unit which went out ahead of the artillerymen to place gun positions, and later direct their fire. They were out front in fields alive with enemy land mines, and exposed to snipers, "but they never failed to do their job."

Gunner Downing has two younger brothers overseas in the R.C.A.F. Sgt. Pilot Ralph Downing and Lt. Col. Alfred Downing.

Armstrong News Items

Alfred Udy, of Vancouver, spent the weekend with his wife and family at the home of her mother, Mrs. D. Stevenson. On returning to the Coast, Mr. Udy was accompanied by his niece, Joan Patterson, who will spend her holidays at the Coast.

Mr. and Mrs. Arthur Hoover, accompanied by Mrs. A. Clinton St. visited Revelstoke over the holiday weekend.

Mrs. Wigglesworth, of Pentteton, is spending this week with friends in Armstrong.

F. Morecombe, of Oliver, spent the weekend with his wife and family in this city.

Mrs. W. Boss returned home last week from a month at the home of relatives in Nova Scotia.

Red Cross Army of Salvation

"The Red Cross goes wherever there are human beings in distress." Homeless, hungry civilian war victims look on the Red Cross as a well known friend.

The Red Cross sent milk, cocoa and blankets to Greece; they organized a mass-feeding program in Yugoslavia; they delivered clothing, flour and chocolate to France, before these nations were occupied by the enemy.

When the present famine broke out in India, the Red Cross sent food to these starving people. Bulk for 10,000 children for three months was sent by the American Red Cross.

When a group of Polish refugees came out of Russia into Iran, the Red Cross helped to care for these people.

At the beginning of the war, the Red Cross was able to bring its 60 years of experience into the task of providing immediate relief to the devastated countries where help was needed. Food and medicine were provided in Poland, Finland and the Low Countries in the early days of the war.

Russia received anti-gas serum, insulin, surgical dressings and hospital garments in 1941 from the International Red Cross. Later on, food, drugs, X-ray equipment, hospital supplies and children's clothing were sent. Vast quantities of soap were welcomed in Russia because it is used to help fight typhus.

China has received large quantities of Red Cross supplies including quinine, vitamin tablets and cracked wheat.

This Red Cross work is in addition to the work done for the prisoners of war and for the troops. The blood plasma is said to be the most important life saver on the battlefield.

The Red Cross operates 421 leave clubs in foreign territories, scattered all over the world. The distribution of comfort articles to the troops when the fighting is thickest helps to keep up the morale of the men. In addition the Red Cross helps to keep the fighting men in communication with their families. "Front-line officers" know that, in many cases, news from home can make the difference between a good soldier and a bad one.

Kelowna-Westbank Ferry is Overhauled

KELOWNA, July 1—Overhaul of engines of M.S. Pendozi, Kelowna-Westbank ferry, is being carried out while the ferry is in operation, and while the work is being done the ferry is operating on a reduced schedule.

The fact that the Pendozi has two engines makes it possible to overhaul one and still keep the boat in operation. At present the Pendozi is skipping the usual trips of 8:10 a.m. and at 1:10 p.m. from Kelowna to Westbank.

No further word on the choice of a highway site for complete overhaul has been announced by the Provincial Government since the city registered objection to use of a city-owned lot immediately south of the Simpson mill property.

Lumby Man Convicted Of Driving Charge

John M. Dyer, of Lumby, was convicted of a charge of driving a motor vehicle to the common danger when he appeared in District Police Court in Vernon on Tuesday morning. He was fined \$25 and costs.

Dyer was the driver of an automobile that crashed off the Lumby highway shortly before midnight on June 16. Two people were injured and required hospital attention.

The prosecution laid the charge after finding that the car operated by Dyer was a menace while on the highway.

Evidence in this case showed that the lights of the automobile he was driving went out as he proceeded along the road; and that when he attempted to stop the car, to prevent crashing, his brakes would not function.

Frank Smith appeared for the defendant and Sgt. R. S. Nelson conducted the prosecution.

All Time Fire Chief

(Continued from Page One)

Alderman E. Bruce Cousins, reporting on the work of his department at Monday evening's Council meeting, strongly advocated an annual license fee of \$50 for all bicycles in the city of Vernon, of which the approximate number is 350.

It was stressed that no revenue would be gained by this means, but that it would protect the owners from theft, of which there have been several recently. The Police Department have volunteered to do the necessary office work, and the fee will cover the price of tags, plates and registration. Alderman Cousins said he was enquiring into the system used at the Coast, and that thefts are practically nil in cities both large and small, where bicycles are licensed.

Alderman Cecil Johnston said that sidewalks on Charles Street will be started this week. J. Agnew commenced a survey of the corner of Seventh Street South on Monday morning. Permission was granted to Alderman Johnston to purchase a car of asphalt.

Discussions on the piping of Girard Creek had resulted in letting the contract for some pipe.

Moulds have been rented. Complaints are cropping up again with reference to the charge made by the City for codling moth control. It was disclosed, Mrs. Wilbee asking that a charge for this service be eliminated from lots on Lake Drive. City Solicitor C. W. Morrow is being consulted.

O'Keefe Avenue Sewer Installed

Four city employees who did emergency work at the Disposal Plant will be granted a small bonus. This was decided upon Alderman Fred Harwood reporting on current conditions at the Plant. Permission was granted to take the sludge away. "The Department of National Defence has not replied to us with regard to their share of maintenance costs," he revealed.

"The Digester for our own system needs cleaning out soon. We shall soon have to install a new settling bed and screening chamber," reported Alderman Harwood. "The O'Keefe Avenue sewer is just completed," he continued, saying that poplar tree roots as long as 10 feet had penetrated the underdrain on Lelshman Avenue.

ONE MAN'S INCOME

IS ANOTHER MAN'S

OUTGO...

If rising prices and costs were allowed to keep pushing each other up, inflation would be unavoidable. That's what inflation is—a panic rise in prices—with money losing its value and confusion everywhere. To prevent inflation, a ceiling has been set on prices and profits,—wages and salaries have been controlled.

If one person demands higher prices—another higher profits—another a higher wage or salary—soon everybody would be making the same demands—demands on everyone else.

Then costs of production could not be controlled.

The ceiling could no longer be held.

Living costs would go up—

Income

begin their frantic rise.

ECONOMIC STABILITY IS NECESSARY TO MEET THE PRESENT PROBLEMS
OF WAR AND TO PROVIDE A BASIS FOR PEACE

LISTEN TO "IN THE SPOTLIGHT" RADIO PROGRAMME
EVERY SUNDAY NIGHT 7:30 p.m. B.C.T.

This is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.

THE LIGHT of day dispels the shroud of night. It is well that all the tribulation and error universally rampant, cannot mar nor cloud the brilliance of lovely things.

And so it is that we reflect on the past year, our first; though born in a time of stress, we have prevailed, and cherish the opportunity of having been of service to you.

And so, in the radiance of a New Dawn, we know that infinite beauty will endure; that in truth, there is no night.

We trust that it may be our continued privilege to bring lovely things to you, things that reflect, symbols of our way of life.

Dean's Jewellery Ltd.

Summer Sees Logging at Peak in Enderby District

ENDERBY, July 4.—Cutting, sawing and hauling is running on a 24-hour shift at the R. W. Bruhn camp at Hidden Lake the past few weeks. Considerable quantities of white pine have been cut at the lake mill, loaded onto trucks, and brought into the town yards, where it is being piled awaiting shipment to Nelson.

Numerous new camps of Japanese workmen have been opened up in the Hidden Lake area in order to bring out this supply of timber. The chief source of handicap, however, is the lack of teamsters and drivers. E. Jones, manager of the camp, is keeping up a high rate of production with considerable difficulty. Every day loads of either mill-finished lumber or heavily laden trucks of logs form a continuous stream of hauling from Hidden Lake into Enderby, or on to further markets. It is hoped at the camp to have as much of the trucking done as possible before fall rains make transportation difficult.

Mrs. Dave Jones accompanied by her two children, Margo and Sharon, left for Hidden Lake early in the week and will remain there for the summer months.

Huckleberries are now at their best in the Trinity Valley district. W. Kral, one of the Trinity Valley residents reported that he was able to pick 30 pounds of berries on one afternoon. In former years it was generally supposed that huckleberries only grew in the very high levels near Revelstoke Mountain, or in other high altitudes, and in places difficult of access.

According to reports from Mr. Kral, however, he was able to bring

Holiday Guests at Salmon Valley Homes

SALMON VALLEY, July 4.—Gerald Lynn, of Cellist, who has been visiting for 10 days with his sister-in-law, Mrs. George Lynn, following the death of George Lynn, left on Thursday for Enderby, accompanied by his two sons, Johnnie and Jimmie, who will spend part of their holidays with their aunt, Mrs. Nelson, of Enderby.

Mrs. George Lynn left last Thursday for Ashcroft, where she was joined by her nephews, David Ford and his brother from Salmon Arm, en route to Hazelton, where she will spend a month with her sister, Mrs. Elliott.

Lorraine and Joan Hunter of Salmon Arm, arrived on Friday to spend part of their holidays with their cousins here. Lorraine returned to Salmon Arm on Sunday, whilst her grandmother, Mrs. J. R. Freeze, returned home, accompanied by Bruce Hunter.

Mrs. Barbara Pryce, of Penticton, arrived on Wednesday to visit her parents, Mr. and Mrs. H. Sharp, for a few days.

Mr. and Mrs. S. B. Penly, of Penticton, spent the holiday weekend at the home of J. J. Heywood. Funeral services were held for their father, Mr. S. B. Penly, on Sunday.

Miss Lena Materl, of Kelowna, is spending a week with her parents.

Homeward Bound!

Two Canadian soldiers, captured at Dieppe, arrive at an Eastern Canadian Port aboard the Gripsholm among the U.S., Canadian and British repatriates en route home from Germany.

Vernon Speaker Addresses Lumby F. I.

Agricultural Federation Needs Every Farm Family

LUMBY, July 4.—"The Canadian Federation of Agriculture," was the subject of an address by C. A. Hayden, secretary, B.C. Federation of Agriculture to 30 members of the Lumby and District Farmers' Institute who met at Mabel Lake on Tuesday evening, June 27. Dividing his subject into three parts, "What it is; How it works, and What it advocates," Mr. Hayden, introduced by President S. Freeman, traced the growth of the organization and its work.

"No matter how sympathetic other organizations may be towards agriculture, farmers must rely upon themselves to secure those basic reforms required for agricultural prosperity," declared the speaker. Referring to a speech years ago by Henry Wise Wood, then president of the United Farmers of Alberta, he emphasized, "How inequitable it is that farmers selling their produce are forced to take the buyers' price while in their purchasing they must pay the sellers' price." To work towards the solution of this problem was the motive behind the formation of the Canadian Chamber of Commerce (later re-named the Canadian Federation of Agriculture) which resulted from a meeting in Toronto in 1935.

Major T. Hutton, a B.C. man, took the lead in this work and was made the first chairman. That beginning the Canadian Federation of Agriculture has grown in nine years to an organization which includes 350,000 of the 750,000 Canadian farm families," Mr. Hayden pointed out.

"Our goal, however," he added, "we need every farm family in Canada to join us."

At this point, Mr. Hayden referred to the very creditable membership of 79 now reached by the Lumby Institute. He explained how many of its suggestions had become part of the Federation policy.

Turning to the work of the Federation, the speaker instanced the operation of the Farm Radio Forum as a concrete illustration of a means devised to help farmers unite their ideas and strength.

"At one time," he continued, "delegations representing farmers were fortunate to secure an audience with the Premier or the Minister of Agriculture in Ottawa. Now we are able to meet the full Cabinet which listens closely to a detailed 'brief' which we have prepared for the occasion."

Potent Factors

The diversity of agriculture in Canada and the "bugbear" of transportation costs were problems which must be taken into account. Farmers were urged to produce more and lower their costs of production while operating under price ceilings which, conflicting with rapidly rising labor costs, were rapidly reducing their margins.

Referring to subsidies, Mr. Hayden emphasized that in the view of the Federation, they were really subsidies to the consumer. "Consumers in Canada have never been educated to pay the cost of production for food and fibre," he declared, "and it is our task to see that these costs are fairly met."

That agriculture should retrograde was termed "unthinkable" by the speaker.

According to the Bureau of Statistics—Canadian National Income in 1943 reached a high of \$9,000,000,000. The farmers' share amounted to \$1,397,000,000. He pointed out that the B.C.'s farm income of \$85,000,000 would have increased to \$95,000,000.

Turning to the future, Mr. Hayden concluded, "In the readjustment after the war there must be a better deal for farmers. The sub-committee on Agriculture of the Canadian Parliamentary Reconstruction Committee has already received a program for improving and fully equipping farm homes after the war. Our goal can be reached. That is what the Federation of Agriculture, which is your must strive for."

Mr. Evans, of Vernon, a well-known member of the Institute, was then introduced by the president who expressed the pleasure of the members in Mr. Evans' recovery from illness.

Mr. Evans touched briefly upon a number of topics, primarily in the district, and giving an outline of crop prospects for his district. He warned that Black Leg was on the "march" and could be controlled by farmers themselves. He stressed the dangers in progress from a stampede of intention which may result in a peak this year.

Regarding organization, Mr. Evans pointed out that Vancouver "has the one of Ottawa today" and time to keep the farmers must maintain their own organization and expand it.

Both speakers were heartily applauded by the audience.

Council Extends Congratulations To J. W. Wright

The City Council paid a tribute to City Clerk J. W. Wright on Monday evening, when they congratulated him on 25 years service. "He has always been most generous with his time; willing to help with the welfare and benefit of the city at heart. He has a wealth of information," said Alderman F. S. Galbraith, who stated that the Council recognized his valuable service to the City of Vernon.

His Worship, Mayor D. Howrie, who presided, extended good wishes on behalf of the City and Aldermen. "I would like to endorse that," said Alderman C. J. Hurt.

Armstrong Funeral For AC2 R. I. Smith

ARMSTRONG, July 4.—Zion United Church was filled to capacity on Friday afternoon, June 29, when Rev. R. J. Love conducted funeral services for AC2 Robert Linn Smith, R.C.A.F. only son of Mr. and Mrs. K. H. Smith, who died recently recovered from Lake Erie.

AC2 Smith, who was 19 years old, and a pupil at the Technical Training School at St. Thomas, Ont., was among those who lost their lives in a drowning accident on June 4 last.

Surviving, besides his parents, is one sister, Reta, at home; his paternal grandmother, Mrs. L. E. Smith of Armstrong, and his maternal grandparents, Mr. and Mrs. John Hunter, of the Knob Hill district. Two uncles and an aunt are likewise residents of the Knob Hill and Huxley districts.

AC2 Walter Yures, who accompanied the body on its journey west, was one of the pallbearers. Interment was in Armstrong Cemetery. Full military honors marked services held at St. Thomas on June 28.

Elderly Resident of Salmon Arm Passes

SALMON ARM, July 3.—Funeral services were held on Monday afternoon from the Gospel Tabernacle, Salmon Arm, for Mrs. Hoffman, who died last Thursday, June 29. Rev. J. White, of Vernon, officiated at the last rites.

Mrs. Hoffman was in her seventy-sixth year. She had made her home with her son in the Broadview district for the past two years, and had previously lived in Calgary.

Besides her son, Gilman C., she is survived by a daughter in San Francisco.

Mrs. K. Somerville is said to be London's champion house-to-house collector for the Red Cross penny-a-week fund. In two years, Mrs. Somerville has collected the equivalent of \$15,000.

Kay Golley Gained Third Place For Carnival Queen

Salmon Arm Represented At Kinsmen Celebration

SALMON ARM, July 3.—Salmon Arm was well represented at the big Kinsmen's Stampede at Kamloops on Dominion Day, July 1. Many Kinsmen and friends travelled to the big attraction by car and train; some of the younger element tried their luck at hitch-hiking.

Kay Golley, Salmon Arm's candidate in the Queen contest, was successful in gaining third place. Kay Golley, chairman of the Milk-for-Britain committee, did a fine job of organizing the campaign. He was ably assisted by his fellow-Kinsmen, who worked hard to get the 1,037,900 votes, which were the result of their efforts, for the Salmon Arm Queen. Mrs. Moore of Salmon Arm, was the individual citizen who sold most tickets in the campaign.

Miss Edna Urquhart of Vancouver, is spending a short holiday visiting her parents, Mr. and Mrs. J. K. Urquhart, of Salmon Arm. After three weeks visiting relatives in Armstrong and Salmon Arm, Mrs. Alan Beech and two children returned to their home in Vancouver last Saturday.

Mrs. A. L. Porterfield and Miss Nellie Porterfield left last Wednesday to spend a short holiday visiting the former's mother and other relatives at Plesandale, Bask.

To Make Home at Coast

After spending a few weeks at the Coast, Mr. and Mrs. Peter Campbell returned to Salmon Arm last week. They expect to make their home at the Coast, and will leave this district shortly, it is understood.

Miss Patricia Blivar has returned home from Vancouver, where she has been employed for several months in a war industry.

Petty Officer Harold Berscht, R.C.N.V.R., travelling to the Coast from Calgary, Alta., stopped over on Sunday evening to visit his uncle, A. Berscht, and other friends in Salmon Arm.

Miss Pearl Pacey left on Saturday for Vancouver where she will attend the B.C. Teachers' Summer School.

Salmon Arm will be represented at the Lawn Bowling Tournament in Revelstoke this week by a rink comprised of Dr. J. R. Graham, F. Sprague, R. Jeffers and James Day, skip.

You'll Get 50% MORE JAM or JELLY from your Fruit with Certo

WARTIME JAM AND JELLY MAKERS—economize on time, work and fuel. You'll do all of this if you use Certo... and you'll make better jams and jellies.

With Certo you'll get up to one-half more jam or jelly from the same amount of fruit. You'll do it in about one-third the time and with the greatest of ease.

SUCH A SHORT BOIL—With Certo there's no need for long, tedious boiling and stirring. Certo jams need only a one to two-minute full, rolling boil... Certo jellies a half-minute to a minute. What a saving that means in time, effort and fuel!

BETTER TASTE AND COLOUR—The short Certo boil does not spoil the natural taste or dull the natural colour of your fruit as long boiling does. Certo jams and jellies retain all the taste and colour of the fresh fruit. They are not only firmer and more sparkling—they taste better, look more appetizing.

NO GUESSWORK—With Certo you get a book of easy-to-follow recipes. Because different fruits need different handling there's a separate recipe for each fruit. Follow exactly the recipe for the fruit you are using and you can be sure of success.

WHAT CERTO IS—Certo is fruit pectin—the natural jelling substance in fruit—extracted from fruits in which it is most plentiful. It allows you to make jam or jelly from fully ripe fruit instead of the under-ripe fruit called for in old-fashioned recipes.

FOR THE BRIDE . . .

LUMBY, July 5—A post-nuptial shower, made especially lovely by a decorative motif of early summer flowers, was held the middle of June at the home of Mrs. N. Bessette, honoring Mrs. Gunnar Johnson, the former Miss Norma Forester.

The rooms were decorated with red, peonies, bridal wreath and snowballs. About 50 guests attended, and each was presented with a spray of bride's wreath as she entered by the Duke and Arline Carter, cousin of the honoree.

A decorated basket, in shades of blue and white, topped with a miniature bride and groom, was drawn to the guest of honor by little Jeanie Swartz and Carol Ann Carter. After opening the gifts, which were numerous and beautiful refreshments were served. Pouring at the bride's table was her grandmother, Mrs. Bessette. Among the guests were the honoree's paternal grandmother, William Forester of Vernon, and her great-grandmother, Mrs. A. J. LeBlanc of Lumby.

Mrs. N. G. Finlayson was hostess at the home of Mrs. J. H. Finlayson, June 23, honoring Miss Helen Harvis, whose marriage to Nick Alexis took place on Sunday, July 2. The affair took the form of a surprise party and shower, the gifts, which were miscellaneous in character, being presented by Mrs. Art Giles and Miss Shirley Van Antwerp.

After the bride had opened her numerous presents, a delicious supper was served by the ladies.

New Mill at Enderby is Rapidly Nearing Completion

Enderby residents are looking forward to the beginning of operations in the newly erected mill in this area. Building and installing of machinery is very near completion and it is expected that about one more week will see all details finished and operations commencing. The new mill is being built by W. Smith of Armstrong and the hope of many old time residents will be realized when a sawmill will once more be operating in Enderby.

According to reports from the local Creamery, butter production has slipped considerably during the past week. This is partly due to the hay having been cut and the pasture not as good as it was in May, when cream production reached a very high level. Production at the Enderby plant is now some 94,000 pounds weekly. Last week the output was approximately 150 pounds lower.

Mrs. Percy Hall left on Monday evening for Vancouver where she will spend a short holiday. She was accompanied on the trip by her two daughters, Misses Margery and Anne Hall. Previous to the war, Mrs. Hall resided for some years in Vancouver, but with the enlistment of her husband, who is now serving overseas, she moved

to Enderby to make her home with her father, James McKay. She will remain here until after the war.

During the past week hay-harvesting operations have been progressing favorably in the district. Weather conditions have been good and most of the farmers have been working long hours to take full advantage of the ideal conditions.

The first part of the hay-harvesting season got off to a bad start, as the weather was most unsatisfactory, and heavy rains handicapped the drying process considerably. The second crop in many places is doing well and, with the first cutting off, the fields will have all the advantages. On the whole, the first crop of hay is of considerable abundance and will be in the barns by the end of the week.

Mrs. V. King-Baker, accompanied by Mr. and Mrs. A. Tesco, were visitors in Vernon on Monday. Mrs. King-Baker leaves today, Thursday, for Mara Lake, where she will spend a few weeks holiday camping at her summer cabin. During her absence, Mr. and Mrs. Carnac-Morris, of Vernon, will reside at her home until Mrs. King-Baker's return.

Among local residents camping at Mara Lake on Sunday were Mr. and Mrs. R. Forster.

By-law Soon Before Kamloops Taxpayers For Hospital Wing

KAMLOOPS, July 4—Taxpayers will be asked to vote, probably early in September, on a by-law for \$175,000 to provide for the extension of the Royal Inland Hospital.

First step was taken at a recent city council meeting, when notice of motion was given to introduce such a by-law. (After the council has carried it through to third reading a money by-law of this kind requires to be approved by the taxpayers before the council finally passes it.)

It is necessary that the city of Kamloops raise this amount before any further action can be taken towards adding the desperately needed accommodation at the Royal Inland Hospital. The provincial government has already agreed to put up a similar amount on the condition that the city provides a like sum.

The amount asked for is based on the estimate of well known Vancouver architects, who have prepared plans for the addition of a wing to the present hospital, at the same time doing the necessary remodeling of the existing building to provide the enlarged service, such as kitchen, service rooms, and so on, which the larger hospital would require.

Butter buried seven years was considered a rare treat by the early Scotch and Irish.

Greeks Train in The Middle East

While many Greeks are now fighting beside the Allies, other Greek forces are training in the Middle East for the part they will play in the liberation of Europe.

THE WEEKLY EDITOR

WRITES OF OTTAWA AS HE SEES IT

By JIM GREENBLAT

Speaking in the House of Commons on the bill to establish a federal Department of Reconstruction, Prime Minister King stated there should be no difficulty in securing money for reconstruction purposes. Having raised money during the war by loans and taxation to destroy lives and property, his opinion was that: "When the whole picture is reversed, and it comes to the matter of carrying out constructive work, for the rebuilding of communities, for the supplying of homes, necessities and luxuries, life there is going to be a demand for employment the like of which could not arise at any other time." Greatest planning, he thought, was for the period following transition when full employment would be very necessary.

The men and women returning from war will bring back a great resurgence of things spiritual, which should startle Canada. It is good to see a critical time. It is so implied in many of the stories coming from battlefronts. Here as an example is a little paragraph from a story concerning the adventure of a famous Canadian aviator, a story which took part in the invasion. "There were shell splashes in our vicinity; we saw craft hit, saw them burning, saw them sink. . . but you understood later, the feeling, look at that passed over men's faces, the ship's radio, turned to invasion news, suddenly interrupted its program to say: 'And now let us stop a moment to pray, to pray for the success of the Allied invasion forces, and the men in it.'"

There was a decided drop in the volume of sales of farm implements and equipment in 1943, reflecting government restrictions on manufacture and sale. Domestic sales mainly at wholesale prices totalled \$29,766,560 against \$50,461,523 in 1942. A drop of 41 percent. Here are the figures by regions with 1942 sales in brackets. Maritime Provinces \$1,088,830 (\$1,610,656); Quebec \$3,133,424 (\$32,984); Ontario \$7,359,877 (\$13,672,486); Manitoba \$3,446,587 (\$6,548,306); Saskatchewan \$7,643,580 (\$12,523,366); Alberta \$6,357,970 (\$10,338,469); British Columbia \$766,292 (\$1,235,857).

Here was a tough nut for the Consumer Branch. For many weeks there has been no end of discussion on the question of who should get sugar coupons (canning) of the school teacher who is boarding in the community, shortly leaving on holidays. The director at Ottawa says she has no authority to rule one way or the other. If the teacher is leaving her boarding house to home for the summer, she should make arrangements to let her landlady have some of her canning sugar coupons. Otherwise she would not be entitled to any of the preserves which would undoubtedly be served her next winter. There is certainly a fair solution to the problem and it's up to the individual concerned to find it.

Among the many booms which will be the lot of civilians after this war is over, is a new insecticide popularly known as DDT. It is now used over all the world by fighting forces as well as in recently liberated countries to counteract the effects of lice which spread typhus. A 5 percent solution of DDT in kerosene, sprayed on walls of barns, stables, etc., is an effective fly killer good for several weeks at a stretch. It is fatal to mosquitoes in minute proportions.

Signs of inflation developed in 1941, before wage and price control was introduced. In the six months preceding prices were rising three times as fast as in the earlier part of the war. This is a significant fact many have not known. If the cost of living had been allowed to rise unchecked, living standards would certainly have been progressively reduced. You know, industry and agriculture have undergone tremendous changes in the war years. Food production skyrocketed from 40 to 80 percent. About a million persons have been added to the labor force. More than 700,000 went into the armed forces. War expenditures last year purchased more goods and services than Canada produced altogether in 1940.

Canada's pension bill in respect to this war will be enormous. The Minister of Pensions said, in the House of Commons that pensions costing \$6,070,000 a year were being paid to 13,412 veterans of the present war at April 30. A federal department of Veterans' Affairs is being set up.

The increasing production of soybean in this country draws attention to the fact that the oil derived therefrom is used largely for edible purposes. The internal estimate of use by the Department of Agriculture indicates that about 90 percent of the product goes into foods, including shortening, salad oil and salad dressings. The oil cake and oil cake meal, by products of oil production, are high protein feeds for livestock and are greatly in demand.

Have you wondered why an officer is not required to wear a federal badge? The familiar red "G.S." badge worn by other ranks who have volunteered for service anywhere? That is because an officer of the Canadian Active Army must be a volunteer for service anywhere before he can be appointed.

Well-Known Vernon Resident Succumbs

The death of Henry Frank Gordon, aged 72, occurred at his home at 516 James Street North, in this city on June 29. Mr. Gordon was a well-known resident of the district, having lived here 26 years.

Born in England, he came to Canada in 1908. While in Vernon he was employed at the Kalamalka Hotel, before failing health forced him to retire. He was a veteran of World War I.

Mr. Gordon's wife pre-deceased him four years ago. At the time of his death he was residing with his step-daughter-in-law, Mrs. Gordon Postill.

Surviving is a daughter, Mrs. Harold Glee, of Kamloops.

Funeral services were held on Friday, June 30, Rev. W. Wright of the Church of God officiating. Interment took place in the family plot at the Vernon cemetery. Winter and Winter were in charge of arrangements.

Prison Term For Williams Lake Man

KAMLOOPS, July 1—Adam Wasjuk was sentenced at the Williams Lake assize to 18 months imprisonment after pleading guilty to a charge of selling spurious gold at Quesnel. He is also to make restitution of the \$2,000 involved. The swindle was perpetrated in 1941, police eventually catching up with him in Toronto.

In 1937 Wasjuk received nine months for a similar crime in Kamloops, when he sold fake gold to Steve Wasylkow.

Armstrong Hears Of Wounded

ARMSTRONG, July 3—Next-of-kin in Armstrong have received further word of two local men who have been listed as casualties from the Second Front.

Pte. E. J. Presley is suffering from a bullet wound in the right eye, while Pte. Frank Morcombe has sustained a shell wound in the chest, a hand wound, and also a wound to his right knee and upper left leg.

Mr. and Mrs. Lawrence Ferguson, of Sundre, Alta., are guests of Mr. and Mrs. Robert Hay.

Misses Kate and Rose Hayduk are among the new teachers to graduate from Victoria Normal school.

Rev. and Mrs. Charles Rogers, of Lloydminster, Sask., were weekend guests of Mr. and Mrs. Nell Bosworth.

After spending six weeks at the home of Mr. and Mrs. F. J. Murray, Mrs. Douglas Murray returned on Saturday to her home at Calgary. Mrs. Murray was accompanied by Miss Mary Anderson, school teacher of Chilliwack, who arrived home with her mother, Mrs. J. Anderson, on Saturday.

Mr. and Mrs. Edgar Hoover and daughter, Ruth, of Vancouver, spent a few days of this week with relatives here.

Vancouver Island Visitors

Mr. and Mrs. F. M. Fulton, and son and daughter, have arrived from Port Alberni for an extended visit with relatives here.

Mrs. K. McCullagh and two sons left last Thursday to spend the summer at Kalamalka Lake.

Miss Anne Murray is spending a few days with friends in Vernon. W. J. Horrex was a weekend guest at the home of his son and daughter-in-law, Mr. and Mrs. Arthur Horrex, of Revelstoke.

John Hay Sr., left last Tuesday to visit friends and relatives at Calgary and northern Alberta.

Mr. and Mrs. Ken Bell and two children, who have spent the past month with Mr. and Mrs. Charles Hoover, left on Saturday for their home at Campbell River.

At Revelstoke Dominion Day

Among those attending the July 1 celebration at Revelstoke were Mr. and Mrs. S. Cary and Mr. and Mrs. E. Bell. Mr. and Mrs. Arthur Provost, of Calgary, arrived on Saturday to spend a week with Mrs. Provost's mother, Mrs. T. Meeres.

Miss Merle Fisher left on Saturday for Vancouver, where she has planned to take a business course.

Mr. and Mrs. Frank Harrison returned Friday from their holiday at Princeton. They visited former Armstrong people, Mr. and Mrs. J. L. Wyles.

OF INTEREST TO WOMEN..

More Helpers Needed to Sew, Knit

Hot Weather No Deterrent To Red Cross Workers Here

The Vernon Red Cross rooms packed a further consignment of dressings, servicemen's comforts, women's and children's clothes, on Tuesday afternoon. Noteworthy in the shipment was a parcel of work from the Vernon United Church War Committee, containing 10 women's and 15 girls' wool dresses, made of Red Cross materials. The work was beautifully finished, and the dresses most attractive; the women's were in brown, and the girls' in blue, all of fine wool material. Included in the parcel from the United Church were six Red Cross Uniform smocks, in grey linen.

The Vernon Red Cross work and has to be used. Thirty-six rooms are keeping open all the summer, and ladies in charge are asking for more workers, who will either sew or knit in the rooms, or take materials home. On Tuesday, The Vernon News reporter saw dark red fine wool being cut into attractive two-piece women's dresses. A number of babies' diapers need to be hemmed. There are servicemen's garments to be knit; among the materials on hand being a grey wheeling wool. This is rather disagreeable to work up, but Mrs. F. G. deWolf says that it is part of the quota.

"Build B.C. Payrolls"

Pacific Milk For Everyone

For those in the immediate city areas permits are necessary, but granted where there is need.

Outside areas are unrestricted, so users who know, no other milk still are able to supply all their requirements.

PLEASE BRING YOUR OWN SUGAR

NEW RECIPE!

Make Your Own CHOCOLATE SYRUP

with **FRY'S COCOA**

EASY TO MAKE—EASY ON SUGAR

Take ½ cup of FRY'S COCOA and ¾ cup of sugar. Mix well together dry. Slowly add ¼ cup of boiling water, stirring meanwhile. Boil for one minute. Then pour into a clean dry glass jar. Cover and let cool. Keep this tasty chocolate syrup handy in the ice box, ready for instant use.

Ideal for Chocolate Milk, Ice Cream and Desserts

Many women say this new FRY'S recipe is just the very thing they've been looking for, and you too will be delighted with the many ways you can use it to improve desserts, etc. For instance, you'll find it most appetizing as a hot or cold sauce on ice cream and on desserts, and it's especially delicious for making chocolate milk.

CHOCOLATE MILK

Whenever You Want It!

To a glass of

thoroughly chilled milk

add 2 dessert spoons

of chocolate syrup.

Stir and serve.

It's delicious!

"There's an Old Spinning Wheel..."

Spinning and weaving provides an interest for more members of the Ottawa Recreation Association, known as "RA," than there are facilities to accommodate. Illustrated is a member of the RA learning the technique of spinning. Other activities in the RA include: from sports such as soft ball, bowling, swimming, golf, to dance classes, painting and sketching, dramatics, child care.

A Friendly Chat

By Cousin Rosemary

Well, here we are: "good old summertime" and all that it brings. This is the season when the maximum use should be made of your refrigerator.

It is most important to realize that refrigeration is drying. (Many a good trout has been spoiled in flavor by putting in the "frig" without being covered or wrapped.)

When putting foods away, always cover the dish tightly. There are useful containers in all stores for this purpose, as well as cellophane covers. This ensures moisture, any contamination by strong-flavored foods, and the same of freshness.

Think Two or Three Days Ahead. When vegetables arrive, wash the celery, put it in the crisper or a covered dish; the same with lettuce. Some people find it of benefit to cook a variety of vegetables and other things when they have the fire on. (This does not apply to those who have electric ranges.)

Beets can be boiled, sliced and put in vinegar, if liked, by your family prepared in that way, enough potatoes for two or three days can be stored in the "frig" for warming up or for salads; peas, beans in the same way. A piece of salmon may be steamed to serve with cucumber and mayonnaise, fruit stewed; custard or light deserts made. All this is quite exclusive of a pot roast, a piece of cottage roll, meat loaf, or whatever is the favorite of your family.

Do not, however, put foods in the "frig" until they are quite cold. Make It Work for You.

After all, you have quite a lot of money tied up in your cold storage equipment. It is working for your health and enjoyment anyway; therefore, when the "dog days" come, you might as well get the maximum of benefit from its silent service.

The housekeeper without an electric range should endeavor to get by with a fire only when she is obliged, if she has a plate on which to boil the kettle or heat vegetables if wanted that way. To light the kitchen fire to cook a few potatoes for lunch, and to have cooked meats at goodness-knows what per pound, is just foolishness and poor management, if you have a "frig." Use your head, lady, in the "hot weather. It will save your

time, temper, and most of all, your health!

The Bygone Days. We are accustomed to hearing much, both for and against, the Victorian era.

Truly it must have been a grand time in which to live in many ways.

In passing, although this is not what I set out to say; I fail to see why the modern man has so much to say about fittings and their place in today's world, when we have put to look back on the reign of Victoria. She knew what she was about; had her ideas; and her own way, in spite of her advisers. If the men, and women too, who talk so much about today's women, and what they are doing—that their place is in the home and all that; just let them think back to 60 years ago, when women, reigning over the British Empire. Even in the light of modern times, she did not make such a bad job of it either.

However, what I started out to say is the ugliness of things used in that era. I don't of course, mean good old-fashioned furniture, beautiful china, four-poster beds. But what was so terribly ugly are the leather buttoned chairs, the hateful electric light fittings, the fringed table cloths, the awful Nottingham lace curtains; even the aspidistra which went with the curtains was not pretty or interesting; the ugly linoleums, the dingy wall papers, dun colored wood work.

Light and Brightness. When you look at homes which just shine at you with their white paint; the pretty floor-coverings; the waxed surfaces; concealed lighting; windows bare to the light; uncluttered rooms; deep and comfortable upholstery, then I think we can perceive our progress as home-makers anyway.

People used to make a virtue of "serviceable" things. It was good and moral to have ugly, dark rooms; things which "would not show the dirt," the starched lace curtains which covered the glass were a sign of good housekeeping.

"My friend, who is having trouble with 'help' (so-called) was heard to tell this priceless anecdote: 'You haven't cleaned the bathtub this morning, Tilly!' To which her hand-maiden replied, 'I didn't know you wanted to use it today!'

C.G.I.T. Honor Their Mothers

Honoring their best friends, their mothers, the C.G.I.T. is having the leadership of Mrs. E. Shaw; Miss Muriel Nelson, president held their annual mother-and-daughter banquet on Monday, June 28. Attendance was 30 all told, including some guests from the W.M.S. The affair was held in the Lower Hall of the Vernon United Church. The girls were responsible for all arrangements, and served jellied chicken and strawberry shortcake amongst other delicacies. Now "mother" can see what "daughter" is really capable of!

The Hall was decorated with vases of gay flowers, the tables set with pink and red roses. Miss Nelson presided; grace was sung by all who attended.

As each girl introduced her mother, she planned a corsage or a gift for her mother. The mothers in turn planned a rose for their daughters in acknowledgment.

The toast to "Our Mothers" was proposed by Miss Anna Davidson, to which Mrs. E. Shaw responded. During the evening, Leader Mrs. Shaw presented white linens to four senior girls, Misses Muriel Nelson, Muriel Albors, Mary Morrison and Ariel Latta.

Silent prayers were offered for "fathers and brothers everywhere," particularly those who are on Active Service.

Guests from the Vernon United Church, W.M.S. were present. Mrs. W. L. Pearson; secretary Mrs. L. A. Galt, and Mrs. K. W. Kinnard, the latter giving an inspiring paper on work among, and for, young people.

Three girls have left Vernon recently: Misses Mary and Honora McBeth and Joan Rowledge, who have moved with their parents to the Coast. These received gifts of C.G.I.T. pins and books.

The group goes into camp at Okanagan Lake towards the end of July.

Mid-Summer BRIDES

Alexis-Haros

OKANAGAN LANDING, July 4.—The traditional marriage rites of the Church of England were solemnized on Sunday afternoon, July 2 in the Chapel of All Saints' Church, Vernon, when Helen Theodore Alexis, exchanged nuptial vows, Canon E. C. B. Gibson officiated at the 3 p.m. ceremony, uniting the daughter of Mr. and Mrs. C. E. Haros of Okanagan Landing and the son of Theodore Alexis and the late Mrs. Alexis, of Victoria.

Given in marriage by her father, a dressmaker suit in royal blue with matching hat was the choice of the bride. Her corsage was of crimson carnations. She was attended by her sister, Miss Irene Bertha Haros, who was frocked in contrast in a blush rose suit and hat with corsage of white carnations. Thomas Paulos was groomsmen.

After the ceremony, a reception was held at the Tourist Hotel, Okanagan Landing, when guests, consisting of members of the families of the principals and close friends, were received by Mrs. Haros, groomed for her daughter's wedding in navy blue sheer, and navy straw hat, complemented with a corsage of pink carnations.

The reception rooms were decorated with pink and white streamers, and the table, at which the guests were seated for the wedding breakfast, was gay with multi-colored roses, madonna lilies and sweet peas.

A three-tiered wedding cake was posed in front of the bride and groom, decorated by Mrs. F. H. Wernick, aunt of the bride. Jeff Hurmuss entertained during the meal, with several suitable songs, and handed the punch bowl during the toasts.

George Carter proposed the toast to the bride and groom, to which both, in turn, responded. Frank Boyne proposed the toast to the bride's parents, which Mr. Haros acknowledged. Mrs. F. H. Wernick toasted the grandparents of the bride, Mr. and Mrs. S. W. Wernick, who celebrated the fiftieth anniversary of their marriage last May 15.

Servitors were Mrs. Frank Lloyd, Mrs. A. Glock, Mrs. M. Johansson, Mrs. F. J. Wernick and Mrs. W. McMullen.

For a honeymoon at Revelstoke and Halcynon Hot Springs, Mrs. Alexis changed into a beige suit with matching accessories. Showers of confetti and good wishes marked their departure.

The West Canadian Hydro Electric Corporation, where the bride was on the staff, presented the couple with a revolving wooden wedding tray. Their numerous wedding gifts included a silver serving tray from Nick's Aces, popular basketball and softball team.

Upon their return, Mr. and Mrs. Alexis will take up residence at the Elite Apartments. Among out of town guests who attended the wedding was Mrs. Max Johansson, of Los Angeles.

For the Bride

Honoring Miss Helen Haros, whose marriage took place last Sunday, Mrs. F. J. Wernick entertained at her home on Wednesday of last week, June 28.

Miscellaneous gifts were presented to the bride-elect by her two nieces in a decorated container. Refreshments were served following games and quiz contests.

Our 77th Birthday

On Saturday the Confederation of Canada was 77 years old. As a nation we are one of the youngest on earth. Considering our age and our present place in the world, it is fair to say that no people of our population has ever achieved so much in such a time before.

On this Dominion Day, the name of Canada stands higher among the peoples of the world than at any time in our history. The contribution of Canada to the war of democracy is now known and appreciated in every Allied country—and equally well known to our enemies. At the approach of our seventy-eighth year, Canada, by actual accomplishment, stands at the head of the smaller nations of the world.

In the year of nationhood now closing Canada has accepted responsibility which our newly defined status involves. It is a responsibility which we long evaded through the years of isolationism and unreality. The recent London conference of the British Commonwealth showed that Canada is now ready to fulfill the obligations placed upon her by her membership in the Commonwealth, its free status, and its position as the fourth industrial nation among the democracies.

History will mark 1944 as one of the great turning points in the life of Canada. It was in this year that Canada turned her back finally on the theory that her freedom could remain immune to the diseases of the world. In this year, Canada has accepted through her government and with no objection from any other political party, the responsibility and the risk of uniting in collective security, and of fighting against aggression wherever it occurs. The Commonwealth has solemnly accepted the principle of world organization, and in this acceptance Canada has exercised a powerful influence.

On this Dominion Day the young men of Canada were fighting and dying on the fields of Normandy, on the plains of Italy, in the skies all over Europe, and in the seven seas. The war is not won. The final campaign, for which all our efforts thus far have been but a preparation, is only beginning. The next year of our nationhood may prove, with its casualties, to be the most bitter in our history and all our little quarrels at home, all our complaints and grievances, and the glib promises of still greater prosperity, may appear small and mean beside our warriors' roll of sacrifice and honor. It is a year to be entered upon with high hopes, with satisfaction for past accomplishment, but with humility, with the realization that war has barely scarred us yet.

No Blind Opposition

Desired or not by a large and influential section of the Canadian community, social assistance measures on a scale hitherto thought fantastic will be enacted by Parliament and Legislature within the next few years to become a lasting part of Canadian life.

This is one basic fact which Canadians should not lightly disregard in giving consideration to current social legislation. Times are changing and it is an undeniable fact that a great many Canadians have replaced the age old goal of opportunity with the new goal of social security.

This is not to mean, of course, that each social security measure must not be critically examined in the pitiless light of our financial ability to pay. All sides must surely agree that any drop in the national income to pre-war levels would make an impossible burden of vast schemes not based on sound actuarial figures.

Now before Parliament for its consideration is a scheme to provide family allowances. Already the criticisms have come thick and fast. To many Canadians it appears that other more desirable measures could have first been enacted. Among these are adequate hospitalization, better medical and dental care in many areas of Canada, and child welfare. At the same time these are not logical grounds on which to base sole opposition to the family allowance proposal. It is somewhat reminiscent of the elderly lady who declared that she was always open to conviction but had never yet met anyone who could convince her.

Better Health Measures

Press dispatches report the death at Crestlag, in the Kootenays, of three children. The cause of the fatalities and the illness is septic sore throat, a milk born disease often more deadly than typhoid fever.

Authorities have instructed the population to boil all milk and water supplies. Milk, if unprotected, can be a poison. Considered the world over to be the finest human food, especially for growing children and invalids, raw milk is at the same time a source of great potential danger. The very elements which make milk the best food for humans also make it an ideal growing spot for dangerous germs.

In the province of Ontario, the sale of raw milk was banned by law some years

FRANK R. HARRIS, Editor

In China Now

*In China now
The wheat would be ripening—
A yellow carpet
Against the purple wall of the hills.
In the cool still dawn,
The golden orioles would be stringing
Their peary notes
On a thread of song.
The boat-shaped paper lanterns
Are being sold for the Dragon Boat
Festival,
Their lighted candles
Showing the joy in children's eyes.
In the moonlit villages
They can hear the two-string fiddles
squeaking,
And with the first rains,
The land would be turning warm and lush
With a glow of green.*

—MARGARET M. MACKAY.

ago. Usually considered the most conservative of provinces, Ontario in this regard has shown the lead to the entire Dominion. A quarter century has elapsed since staid Toronto has allowed to be sold a pint of unpasteurized milk. The prime reason for this action, of course, was the impossibility of checking adequately all sources of supply for a huge population in a small area.

In Vernon great progress has been made towards proper methods of protection for the citizens. The new milk bylaw recently enacted by the City Council to sweep away years of obsolete methods does not go all the way in making pasteurization of milk mandatory, but it does insist that the purveyors of raw milk shall bring their herds and dairy premises up to high standards of sanitation. The bylaw also makes it necessary for producers shipping to pasteurization plants to improve their barns and premises at least to a Grade "B" standard—in many instances a vast improvement.

A detailed and thorough inspection was made some time ago by provincial officials. A number of producers were given thirty days to bring their premises into order, and a recheck is now in progress. It is reported that not all producers have as yet been able to come up to specifications. After a reasonable period, stern measures should be taken.

This is not a matter that can be let slip. The health and wellbeing of Vernon citizens is a matter of the gravest concern, and only the highest standards of protection should be allowed.

Limitations and Functions of UNRRA in Europe

The blockade and the requirements of a war economy have reduced the supply of immediate necessities in Europe to a very low level. When the Germans are driven out of the occupied countries, the need for relief, already pressing, will be increased by the actual devastations of war and by the disorganization of the existing economic structure, resting as it does, on German control. The task of UNRRA in Europe will be to help sustain the population of the afflicted areas until a minimum of economic order enables them to sustain themselves.

On April 18 the Canadian parliament, with only one dissenting vote, passed the UNRRA bill, thereby approving Canadian support of the Relief Administration. Quite recently, with the passing of the Mutual Aid Bill in the House of Commons, Canada's contribution to UNRRA was fixed at \$77,000,000 at least 10 percent of which will be in free exchange and the remainder in goods and services. The Canadian taxpayer might well inquire to what purpose the money is being allocated. The function of UNRRA is not general. In regard to both the whereabouts and the character of its operations, careful definition has been made.

UNRRA will operate in the liberated areas as the foe is driven out. The Council is empowered to admit new members to the organization and presumably this provision leaves the way open for a possible decision to include enemy countries. Parts of the agreement signed in November, 1943, and of the subsequent resolutions of the Council of UNRRA indicate that an effort will be made to separate the relatively uncontroversial problems of European relief and rehabilitation from disputed political issues and the thorny questions of long-term economic reconstruction. Article 1 of Resolution No. 7 of the Council reads: "The at no time shall relief and rehabilitation supplies be used as a political weapon, or no discrimination shall be made in the distribution of relief supplies because of race, creed, or political belief."

In carrying out its purpose in areas requiring relief, UNRRA will function only "after consultation with, and with the consent of, the government or authority (military or civil) which exercises administrative authority in the area." Clearly it is intended that UNRRA shall not interfere in allied military matters or assume responsibility for local political problems irrelevant to its purpose.

Wherever, owing to the lack of inadequacy of local civil authority UNRRA becomes engaged in direct distribution of relief supplies, it should encourage local operation and take active measures to prevent redistribution and profiteering. Distribution in other cases should be carried out by the local administrative authority and the same fairness sought, by means of rationing if necessary.

Certain financial resolutions about distribution indicate that UNRRA does not wish to affect the future of Europe's economy by burdening nations with large foreign debts. Other financial resolutions indicate a desire to prevent the use of UNRRA's resources for political purposes.

Enemy countries if they receive relief, and any other countries able to afford the cost will pay for assistance rendered. However, "it shall be the policy of the Administration, that an applicant government shall not be required to assume the burden of an enduring foreign debt for the procurement of relief and rehabilitation supplies and services." (Resolution 14/10, 10/1, 10/2). In areas where expenses cannot be met by the recipient government, all proceeds resulting from the distribution of the supplies or services of the Administration are to be used for furthering its ends. "Under no circumstances shall any distribution of goods or services be made on the basis of any contribution to any member or non-member government except for purposes of essential supplies and services." Manifestly, the policies are calculated to minimize the political effect of the use of the Administration's resources. It is declared policy of distributions, rehabilitation supplies and restoring public utilities only in areas as they may affect immediate needs. The Council rejects a desire to avoid decisions related to economic factors more enduring than relief.

Future for Fighters

Continued From Last Week
The following is the last in the series of articles published weekly dealing with matters affecting the establishment of returned men, and concludes information on pensions for all branches of the services:

Q. What is the procedure in granting pensions?
A. In every case where a member of the forces is discharged for medical reasons, his documents are sent to the Department of Pensions and National Health, and they are examined by the Canadian Pension Commission. If the Commission is satisfied from the evidence available that a pension should be awarded, it is granted automatically following medical examination for assessment purposes.

Q. If pension is not granted automatically, or I am dissatisfied with the award, what procedure is followed?

A. Briefly, it consists of three steps: on first application the evidence presented is considered at what is known as a "first hearing." If the decision is adverse to the applicant, he is entitled to a second hearing, provided he applies within 90 days. When presenting his claim for second hearing, he is required to submit all disabilities which he claims to be due to military service. He is furnished with a complete and detailed summary of all evidence pertaining to his case available in the departmental records. He is given every opportunity to review this evidence, to include any additional evidence he can secure, and is allowed six months to prepare his claim. If the second decision is adverse, the applicant has the right to appear before an appeal board sitting in his district and to call witnesses. The judgment of an appeal board is final, unless special permission to re-open a claim is secured, based on an error having been made, or by reason of evidence not having been presented, or otherwise.

Q. Am I given assistance in preparing my claim?
A. Pensions advocates, attached to Veterans' Bureaux throughout Canada, are available to give impartial unbiased advice and assistance at no charge to you. These men are fully experienced in pension procedure.

Q. If I am not granted a pension, will I be told the reason why?
A. Yes. You are made fully aware of the reasons for the decision.

Q. Do I receive pension in all cases of injury or illness?
A. No. The injury or illness must result in some definite disability before a pension can be awarded. It must also come under the classifications set out previously as pensionable.

Homefront, Before, After

The immediate effects of the invasion on the British home front are such intangibles as a concentrated interest on the battlefield, even more willingness for self-sacrifice, and a great life in the feeling of the tenseness of waiting.

Further restrictions placed on travel, before and since the invasion have been a serious handicap to civilian life. Since May 18 trains have been liable to be withdrawn without notice. For instance, at one station nine long-distance passenger trains were cancelled in one day. For security reasons, advance notice of cancellation cannot be given. As a result of the railway companies' appeal, many annual conferences have been postponed or cancelled, including those of the Labor, Liberal, and National Liberal Parties, and most individuals have cancelled holidays requiring travel. Since the invasion these restrictions have been continued, and relatives have been asked not to visit wounded soldiers in hospital.

The beer available in some areas has been cut 25 percent to 40 percent to provide the invasion armies. Fish supplies in some areas are also scarce, owing to the absence of trawlers engaged in war transport. Laundry delays have increased, owing to the growing demands of hospitals and the Services.

Since D-Day, strikes have been at a minimum, and strikes then progressing stopped. Factories re-opened with an impressive spurt in production with absenteeism dropped to a minimum.

From the VERNON NEWS FILES

TEN YEARS AGO

Thursday, July 5, 1934.

Winners of six trophies and only sorry there are no more to annex Alex McCulloch, big O-war veteran. They won their final victory in Armstrong on Dominion Day. The winners included coach and trainer Alex McCulloch, with big Ted Asp, Alex Bailor, Joe Myron, John McCulloch, Luke Roberson, Thomas, John, and B.C. Vernon. Interior league ball team took first money, a prize of \$75, in the tournament at Kamloops on Monday by defeating both Kamloops and Revelstoke. In the last round Vernon upset Kamloops 10-3.

TWENTY YEARS AGO

Thursday, July 7, 1914.

Teen-aged girls of Vernon and district are enjoying an outing in a summer camp on the shores of Okanagan Lake. The Religious Education Council of B.C. and Ontario whose auspices this and other camps throughout the province are being held, have, during the past years, held very successful camps in this district, each year the outing is proving itself more popular. Arrangements are nearing completion for the consolidation of the Okanagan Landing and Vernon Schools. The two school boards have reached an agreement, and according to law a new board of trustees will be elected to supervise both districts. Okanagan Landing students will have to be brought to the Vernon school by local arrangements will be worked out immediately after the election.

THIRTY YEARS AGO

Thursday, July 8, 1914.

A donation from the City of Vernon of \$40 as a nucleus of a "Vernon fund" to be sent to Hillcrest, Alberta, to aid in the relief of the widows and orphans of the many miners who died in the mine explosion of June 10, was unanimously adopted by the City Council.

AS I SEE IT

By Elmore Philpott

To Draw Line Among

German soldiers of the quick victory in Normandy has been to show the free world what a narrow escape we had from complete disaster. It is clear, beyond all reasonable doubt, that Nazi Germany had made great strides towards achieving a unified Europe. That is, a Europe unified on the basis of a slave plantation.

About three out of every 10 soldiers serving in German uniform in western Europe are non-Germans. Nor is there any sound evidence to suggest that these minorities fight much less effectively than the others. So gigantic and complicated are the German machines and so cleverly have the Nazis interwoven the non-Germans with the Germans that it is physically impossible for these non-Germans to surrender soon enough to make a material difference in the fighting.

History shows that soldiers of fortune have often been among the toughest of troops. It is quite true (as Cromwell pointed out) that ten soldiers who believed in their cause with heart and soul were worth many more than ten when it came to a crucial battle. It is also true that many of the soldiers of the Roman Empire, and of every other Empire down through history, were men who fought for their bread and butter, or for hard cash; and that these fought well.

Our Scottish forefathers served with French nobles for generation after generation—chiefly because that was a sure way of seeing a bit of the world—and of picking up cash more easily than it could be gathered in the Highlands of Scotland. The English Kings used the hired soldiers (the mercenaries) against the Americans and others. The French Foreign Legion was made up of the scum of Europe. Yet as a fighting organization it was literally terrible.

Property thefts.
The most dangerous feature about this non-German army is the same as applies to the whole German nation. The reason why the Germans are now literally tearing through the West is that they have a diabolical cunning made an entire nation what the lawyers call "accessories to the crime." We might say that only the Nazi party leaders were outright criminals. It is probably true that not more than a million or two of Germany's sixty million people personally participated in the actual physical part of the murder of Russians, Poles, Jews and so on. But tens of millions were implicated as accessories to these crimes. Almost every family in Germany was involved, somehow or other, either in the physical crimes—the actual murders and massacres—or the thefts of property in their own or other countries.

The most vicious of these thefts were the innumerable business transactions which bore the superficial semblance of legality. Most of the corporate property of Europe changed hands. But in almost all cases somebody signed. It may be that somebody else held a pistol to the signer's head, while he or she signed on the dotted line; or the signer was told that failure to sign would mean that some loved one would be tortured or killed if there was no signature.

The point was that somebody did sign, and the papers, all in order, and that the property might actually have changed hands honestly several times since the original theft.

Consequences Pending
So all sections of the German people are scared stiff of the impending consequences of the national crimes, done in the name of Adolf Hitler.

But consider the case of these non-German conscripts or hangers-on in the German army. Under the laws of their own nations they are most certainly traitors. We would certainly shoot British subjects, or Americans, if these had served in German uniform in this war. There is reason to expect the Russian government, nor the Polish government, nor the Czech government to be any more tolerant to outright treachery.

Yet is now in our own interest to find a way out for these non-Germans wearing enemy uniforms.

Quality BUILDING MATERIALS

AT THE PIONEER Sash & Door CO. LIMITED

Everything for Building and Remodelling Under One Roof

AUTO GLASS

Windshields and side-lights replaced while you wait. We stock both crystal and shatter-proof glass. All Sizes.

Asphalt Shingles

in Stock Now! Genuine Ru-ber-oid Products—1 ply, 2 ply, 3 ply.
